MOB STONES BRITISHERS

Coolies Attack at Hankow

Thousands Held in Check for Hours Until Chinese Troops Arrive

Three Defenders of English Concession Injured in Unequal Clash

HANKOW, Jan. 3. (P)—Thousands of Chinese coolies, incited by anti-British speeches, attacked the English concession here today. They stoned British police and marines and sailors landed to protect British residents. Three of the British defending party were taken to hospitals.

The defenders held the huge Chinese mob in check four hours without firing. Chinese soldiers finally arrived and dispersed the mob. Agitators addressing thousands of Chinese gathered at the border of the British concession along the Yangtze River as part of the New Year holiday celebration, incited them to fury by relating acts of British aggression. They urged the mob to attack the concession in which the British lived.

The mob rushed upon the concession and began stoning the British police. They added by twenty men from the British warships in the river, held back the mob without firing. British soldiers and sailors were hastily landed, and again the mob entered the thin line of British troops opposing the howling mob of Chinese.

One British sailor was bayoneted with his own rifle when twenty more jumped upon him. Two other sailors were badly beaten with clubs, and had to be taken to a hospital. Throughout the afternoon the mob continued firing a shot held there for several days.

At dusk Chinese government soldiers arrived from a near-by post and forced the mob to disperse.

THOUSAND DOGS FOR SAN FRANCISCO SHOW

SAN FRANCISCO, Jan. 3. (Reuter)—More than 1000 bow dogs of various breeds, colors and sizes, among them several international champions, have been entered for the eighteenth annual dog show of the Golden Gate Kennel Club on the Grand and Third sts.

SENATE SPLIT ON SEATING OF SMITH TEMPORARILY

Fireworks Develop as Democrats Decide to Oppose Even That; Nye Credentials Studied

WASHINGTON, Jan. 3. (P)—A wide-open split over the question of temporarily seating Frank L. Smith as a Senator from Illinois, while his credentials are being investigated, developed today in the Senate. Republican leaders had hoped this might be done, but Democrats in conference found themselves in substantial agreement that Gov. Small's appointee should be barred from the Senate until after the Elections Committee holds a hearing and makes a report.

Smith, appointed to fill the unexpired term of the late Senator McKinley, whom he defeated in the Illinois primary last spring, still kept in Senate quarters as to when, if at all, he will present himself to take the oath.

ENVOY FALLS DOWN

Senator Denon, Republican, Illinois, who returned to Washington from his State after conference with Smith and Small, gave little encouragement to Republican leaders who had requested him to stand with the appointee to return to the Senate. They had told him that Mr. Smith had a chance of his being permitted to serve out the McKinley term because of contributions made to his campaign by public-service organizations.

Senator Denon explained that he had no personal objections to the credentials but that it is the proper thing for a standing committee to examine those of all Senators to determine whether they are in proper form.

SHARP DISCUSSION

After a sharp discussion, the Senate referred the credentials, but peremptorily Senator Nye to take his seat. His course was suggested by Senator Robinson, the Democratic leader, and was approved by both Senator Nye and Senator Arthur, Democrat, Illinois, author of a pending resolution which would bar Smith at the bar of the Senate.

Both Senators explained that they had no objection to the seating of Senator Nye, Mr. Arthur declaring that he had not been charged with excessive campaign expenditures, as far as he knew, was honestly elected.

Rejection of the Smith case was urged by Senator Caraway, Democrat, Arkansas, who warned Senator Nye, Republican, Pennsylvania, that he could not count on Southern Senators endorsing Senator-elect Nye. Pennsylvania and Smith by standing to investigate the negro Senator Mayfield, Democrat, Texas, moved to Senator Caraway by de-

NEW TEXAS CELLS LOSE OCCUPANTS

"Ma" Ferguson Provides Twenty-seven Pardons and Cuts Two Slayers' Terms

AUSTIN (Tex.), Jan. 3. (P)—Gov. Miriam A. Ferguson today committed to short terms the life imprisonment sentences of two men, each convicted of murder in connection with the slaying of a relative, granted twenty-seven full pardons and one parole, increasing her clemency proclamations to 2979.

All indications are her clemency proclamations will pass the 3000 mark before she leaves office the 18th inst., at the end of a two-year term. She has granted 729 full pardons and 515 conditional pardons.

New Date Set for Daugherty Second Trial

NEW YORK, Jan. 3. (P)—Approval of an attorney's agreement that the second trial of Harry M. Daugherty, former Attorney-General, and Thomas W. Miller, former Alien Property Custodian, be postponed until February 7, was given today by Federal Judge Winslow. The trial was to have started tomorrow.

TRADE BODY WINNER IN PAPER CASE

WASHINGTON, Jan. 3. (P)—The Federal Trade Commission won in the Supreme Court today its case against the Pacific States Paper Trade Association and others charged with conspiracy unlawfully to shut out competitors and enhance prices on the Pacific Coast.

Also involved were the Seattle-Tacoma Paper Trade Conference, the Spokane Paper Dealers, Portland Paper Trade Association, Paper Trade Conference of San Francisco and the Los Angeles Wholesale Paper Jobbers' Association. A majority of the wholesale paper dealers on the Pacific Coast are members of these local associations.

The commission charged that the associations had formed a general combination or conspiracy, both to shut out competitors and to maintain an artificial level of prices.

Construction of Power Projects Takes Millions

SAN FRANCISCO, Jan. 3. (P)—Expenditure of large sums for construction work in the Sacramento district was included in projects announced today by the Pacific Gas and Electric Company. Other projects and the amount to be spent were: Power line from Nevada to Coyote, in the San Jose Division, \$400,000; new substation at the Monte Vista, in the same division, \$100,000; gas facilities in Sacramento and vicinity, \$800,000; new power lines in the East Bay section, \$500,000; and new gas mains in the East Bay, \$400,000.

The Salt Springs development, in Alameda county, involves \$1,500,000 expenditure this year. The Melones project, for which machinery is being set up in the power house east of Oakdale, is a \$2,500,000 affair.

OAKLAND POPULATION SHOWS HUGE INCREASE

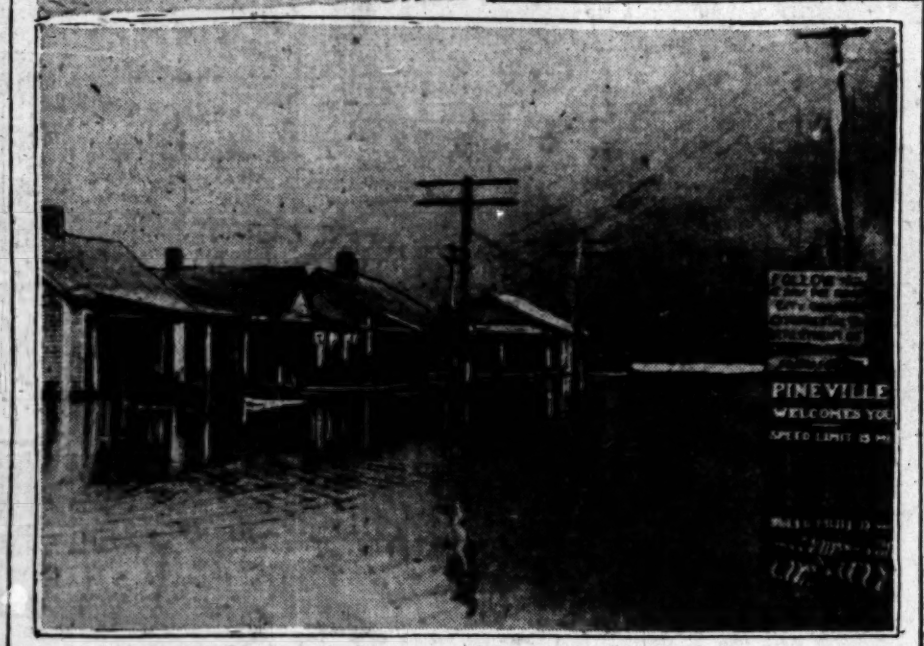

OAKLAND, Jan. 3. (Exclusive)—Statistics gathered from various sources, and averaged, show a population gain in the east bay area of 48 per cent since 1920, the year of the last United States census. County Clerk George Gross has estimated that the population of the city of Oakland is 307,622. Chamber of Commerce figures estimate 305,407. The last census showed Oakland's city population as 216,361.

LABOR TROUBLE SPREADS

NOGALES (Ariz.), Jan. 3. (Exclusive)—From Mazatlan, Ariz., has come information of spread of the labor troubles to the plant of a large shoe manufacturing concern which had planned suspension of operations for three months for the installation of new machinery. The Junta de Conciliacion has declared that wage payments will have to be apportioned to the suspended workers during the time of idleness, or the factory, once operated by Mexican capital, will be placed on the union blacklist.

WHERE FLOODS BROUGHT MISERY DURING HOLIDAYS

With several thousand families homeless and at least a dozen persons dead, flood waters of southern rivers are receding slowly. The upper picture shows First street, Nashville, Tenn., and the lower shows a street in Pineville, Ky. The "Welcome" and "Fifteen-Mile Speed Limit" signs, in the lower corner, applied only to rowboats, of course, during the flood. Upper view, Herbert photo; lower, P. & A. photo.

NICARAGUA MOVE ASSAILED

Wheeler in Resolution Asks Troop Withdrawal; Saraguary Battle Reported

WASHINGTON, Jan. 3. (P)—Contending that the Diaz government in Nicaragua never should have been recognized by the United States, Senator Wheeler, Democrat, Montana, introduced a resolution today demanding immediate withdrawal of the American naval forces from that country.

The measure charged that the Diaz government had other foreign planters to allow the laborers to proceed with the coffee harvest, but says the laborers must go to the front.

American sailors and marines were blocking the efforts of "Dr. Juan Sacasa to restore constitutional government." The order of Rear-Admiral Latimer in declaring Puerto Cabezas a neutral zone and the establishment of censorship there were cited as "hindrances" to the Sacasa movement's success.

The Diaz government, it was charged in the resolution, was illegally elected, and "it must have been apparent to the State Department that Diaz could not maintain a stable government without the aid of American gunboats and American marines."

Dr. T. S. Vaca, Washington representative of Sacasa, in a statement asserted that "not a single Mexican officer is to be found in Sacasa's army," but at the same time declared the sailing of the United Fruit Company's ship Abasco with an airplane and bombs for the Diaz forces was ample justification for any assistance which might be given to Sacasa by Mexico. The Abasco is said to have sailed from New Orleans on December 29, last, to the Nicaraguan west coast.

PARIS STUDENTS PROTEST OUR ACTION

PARIS, Jan. 3. (P)—Messages to President Coolidge and Charles G. Dawes as "President of the Senate" protesting against the "landing of American marines in Nicaraguan territory in violation of the most elementary principles of international law" have been sent by the General Association of Latin-American Students of Paris.

The association also has cabled a message to the Congress of Pan America demanding rejection of the recently drawn up treaty with the United States, which is described as "double treason against the national independence of Latin America."

BLOODY BATTLE TAKES TOLL OF 365

MANAGUA (Nicaragua) Jan. 3. (P)—Final reports of the three-day battle last week at Las Perlas (Pearl Lagoon) show it to have been the bloodiest of the present war between the forces of the Diaz conservative government, recognized by the United States, and the Sacasa liberal government, recognized by Mexico.

(Previous dispatches said the Liberals were victorious. The Conservatives retreating their main body to El Bluff, where they were disarmed by the American naval authorities. Their rear guard was overcome by the Liberals.)

Of the 1800 Liberals and 1900 Conservatives engaged, 302 were killed and 150 wounded. It is impossible to give the respective losses from these totals, the dispatches say.

No attempt was made to bury the dead, and many of the wounded crawled off into the swamps to die. Thousands of vultures are hovering over the battlefield.

Frank R. Mitchell, World War veteran and soldier of fortune in many Central American revolutions today termed the scene after the battle as "indescribable."

"I had to turn away. I have never seen such sights in my career—not even in the World War, due to the lack of attention for the wounded."

The commander of the Conservative army announces it will be necessary to call out every able-bodied male between the ages of 12 and 50. He has received requests from American

REVIEW FOR DOME CASE

Oil Lease Before Supreme Court

Sinclair Wins in Plea for Hearing Prior to Ruling on Doheny Appeal

Defense Counsel Asserts Different Questions of Law at Issue

WASHINGTON, Jan. 3. (P)—The Supreme Court today agreed to review the decision of lower courts setting aside the leasing of the Teapot Dome (Wyo.) naval oil reserve to Harry F. Sinclair interests while Albert B. Fall was Secretary of the Interior.

Government counsel sought to prevent consideration of the Sinclair petition for a review until the court has rendered its decision in the Elk Hills naval-reserve case, against Edward L. Doheny and his companies, which was argued in October and now is under advisement.

Attorneys for Sinclair, however, took issue with the government's counsel's contention that the Doheny case, which the government won in both the District and Circuit courts, will decide the questions they sought to raise, asserting that the two cases present materially different law questions. The Federal District Court at Cheyenne, Wyo., sustained the Teapot Dome lease and contracts which the government attacked as invalid because of fraud, but the Circuit Court canceled the lease and contracts.

Criminal proceedings against Doheny and Fall, on account of the Elk Hills contract, resulted in their acquittal recently. Sinclair and Fall are to be tried here next month on criminal indictments of conspiracy to defraud in the Teapot Dome transaction.

MODERATE UNIONISTS TO WAR AGAINST REDS

LONDON, Jan. 3. (P)—The Daily Express says the most influential of Great Britain's moderate labor leaders have decided to declare open war against Communists in the trade unions.

SHERIFF FOR FOURTH TERM

PRESCOTT (Ariz.) Jan. 3. (Exclusive)—George H. Ruffner is starting on his fourth term as sheriff of Yavapai county. He was in office first in 1894 and again in 1897 and 1923, participating in some of the most notable experiences ever known by southwestern peace officers.

POOR EYESIGHT

YOUR EYES EXAMINED GLASSES COMPLETE \$2.90

An examination of your eyes, a pair of spherical glasses, in a frame, complete for \$2.90. One week Gold or shell frames, toric, cylindrical, fancy shapes and double vision glasses correspondingly low.

Poor eyesight is the cause of many troubles. It is at least a great inconvenience at times. Eye strain may cause headaches, nervousness, squinting, insomnia and many other troubles.

Many eyes are easily corrected, while many more are not. Yours may be the latter kind, and there is where Experience, Knowledge and Ability count—by overcoming these "nags." You can't afford to take the chances.

Have an Oculist's Examination—insist upon it. Correct vision increases one's earning power. Give your eyes the best of care. They are worth it. I try to be reasonable in my charges. No "drops" used. Some of your neighbors are wearing glasses I fitted.

REALTORS MEET FOR INAUGURAL

San Francisco Installed as New President

Five Hundred Members of Association Attend

Rowell Presents Plea for Undivided State

SAN FRANCISCO, Jan. 3. (AP)—(Exclusive)—Advancement of the real estate business to rank among the foremost industries of the United States, enthusiasm over California sales aggregating more than \$750,000,000 in 1926 and a plea for a united, rather than a divided State, marked the inauguration tonight of Harry B. Allen of San Francisco as president of the California Real Estate Association. He succeeded Harry H. Culver, founder of Culver City, to the presidency.

More than 500 members from every part of the State were in attendance, the annual inaugural having grown to be second only in importance among members to the yearly convention of the organization. The oath of office was administered by J. R. Gabbert of Riverside, retiring State Real Estate Commissioner. Addresses of welcome were made by Mayor Ralph and Samuel G. Buckbee, past president of the local organization.

Chester H. Rowell, in the principal address, made a plea for State unity that was received with an ovation. "Commercially," he said, "we face the whole opportunity of the awakening Orient. At our doors are half the human race and fully half the earth's resources. The realization of these opportunities is no longer a dream of the distant future. From the back door we have become the front door of the nation."

"For all these things we need more than anything else a united California. This is one State. Let there be no talk of making it two."

"If its two ends are far apart, better roads and transportation facilities are bringing them closer together. If the people of one section are predominantly newer Californians than those of the other, time will make the newer Californians into older ones, while your energies, over the State, will bring more of the newer Californians to the north as well as to the south."

MULES HOGGING SKY TRAFFIC

More Sent to Heaven From Their Hoots Than via Plane Crash Route

NEW YORK, Jan. 3. (AP)—It appears to be much safer to fly in planes of orthodox horsepower than to get a ride in the air from mule power. Eight pilots lost their lives in commercial aviation last year, while eight persons were killed to death by mules in Missouri alone, Capt. H. G. Stevens reports to the American Society for Promotion of Aviation.

cilities are bringing them closer together. If the people of one section are predominantly newer Californians than those of the other, time will make the newer Californians into older ones, while your energies, over the State, will bring more of the newer Californians to the north as well as to the south."

PACT NONPOLITICAL

Italian Embassy Denies Rumored Terms of Italo-German Treaty

WASHINGTON, Jan. 3. (AP)—Official denial that the recent Italo-German treaty or arbitration contained political or anti-French clauses was made by the Italian Embassy here today.

Making public a telegram from the Rome-Foreign Office, the embassy said that all politics had been kept out of the treaty at the initiative of the Italian government and also denied a report that the German Foreign Minister, Brünnemann, had refused an invitation to go to Rome to sign the treaty.

Court Upholds State Right to License Busses

WASHINGTON, Jan. 3. (AP)—States may require interstate bus lines operating within their borders as common carriers to obtain permits and licenses, provided interstate commerce is not restrained, the Supreme Court held today in an appeal by the Interstate Bus Corporation of Connecticut against the Holyoke Street Railway Company of Massachusetts.

WASHINGTON, Jan. 3. (AP)—Wong Tai, convicted in Northern California of violating the Federal Narcotic Act, lost his appeal in the Supreme Court today.

Feet of Boys Held Inclined to Flatness

OAKLAND, Jan. 3. (Exclusive)—Although it is generally supposed that fewer boys have flat feet than girls, tests conducted at the Roosevelt High School have demonstrated that boys have two-thirds of the flat feet, according to Miss Florence Ragle, who conducted the tests.

Only two out of fifty students tested had nearly perfect feet, according to Miss Ragle. The tests further showed that nine students out of this number had bunions and that four showed signs of developing fallen arches. Most of the foot troubles of the modern girl, Miss Ragle maintained, lie principally in the wearing of shoes several sizes too small in order to appear stylish.

SCHOOL HEAD TO QUIT

Successor to Fresno State Teachers' College Chief Announced

SACRAMENTO, Jan. 3. (AP)—The intended resignation of C. L. McLane as president of the Fresno State Teachers' College was announced today by Will C. Wood, State Superintendent of Public Instruction. The resignation is to become effective June 30.

Wood said that McLane had informed him of his intention to retire from the college some time ago, but the resignation was not formally presented until today. In announcing that the resignation would be accepted, Wood said he planned to appoint as his successor, F. W. Thomas, effective June 30, the date McLane leaves the college.

Supreme Court Backs James in Patent Hearing

WASHINGTON, Jan. 3. (AP)—The United States Supreme Court refused today to pass on the propriety of the practice of Southern California Federal judges in having patent cases tried before special masters.

The practice was attacked by the Los Angeles Brush Manufacturing Company, as a result of Judge James' appointment of Charles C. Montgomery as master in two suits. Chief Justice Taft said from the bench that he would expect that the practice would not be abused.

There are 740,000 miles of railways in the world, according to latest statistics.

PACKERS' PLEA FAILS

Court Dismisses Appeal for Ruling on Suspended "Consent" Decree

WASHINGTON, Jan. 3. (AP)—Appeals by Armour & Co. and Swift & Co. seeking to nullify the consent decree by which the packers agreed to withdraw from unrelated lines of business, were dismissed today by the Court of Appeals of the District of Columbia on the ground that the court lacked jurisdiction.

The consent decree was suspended several months ago by the Supreme Court of the District of Columbia, but packers sued to have it declared invalid. The court declined to issue such an order and the case was appealed.

In today's decision it was ruled that the appeal should be made direct to the Supreme Court of the United States.

Review Denied on Receiver's Sale of Road

WASHINGTON, Jan. 3. (AP)—The Paul Railroad foreclosure proceedings resulting in the sale of the property under orders of the Federal District Court at Chicago, will not be reviewed by the Supreme Court.

An appeal was denied today to Edwin C. Johnson and others claiming to own \$18,000,000 in bonds of the railroad. They contended that by a collusive arrangement between the railroad, its bankers and a friendly creditor, the road was placed in receivership and equitably sold illegally reorganized. They lost in the lower courts.

Electric refrigerators are just being introduced into Bilbao, Spain.

LASKY ANSWERS PLOT CHARGE

Brief Filed in Suit Before Trade Commission

Picture Corporation Denies Throttling Competition

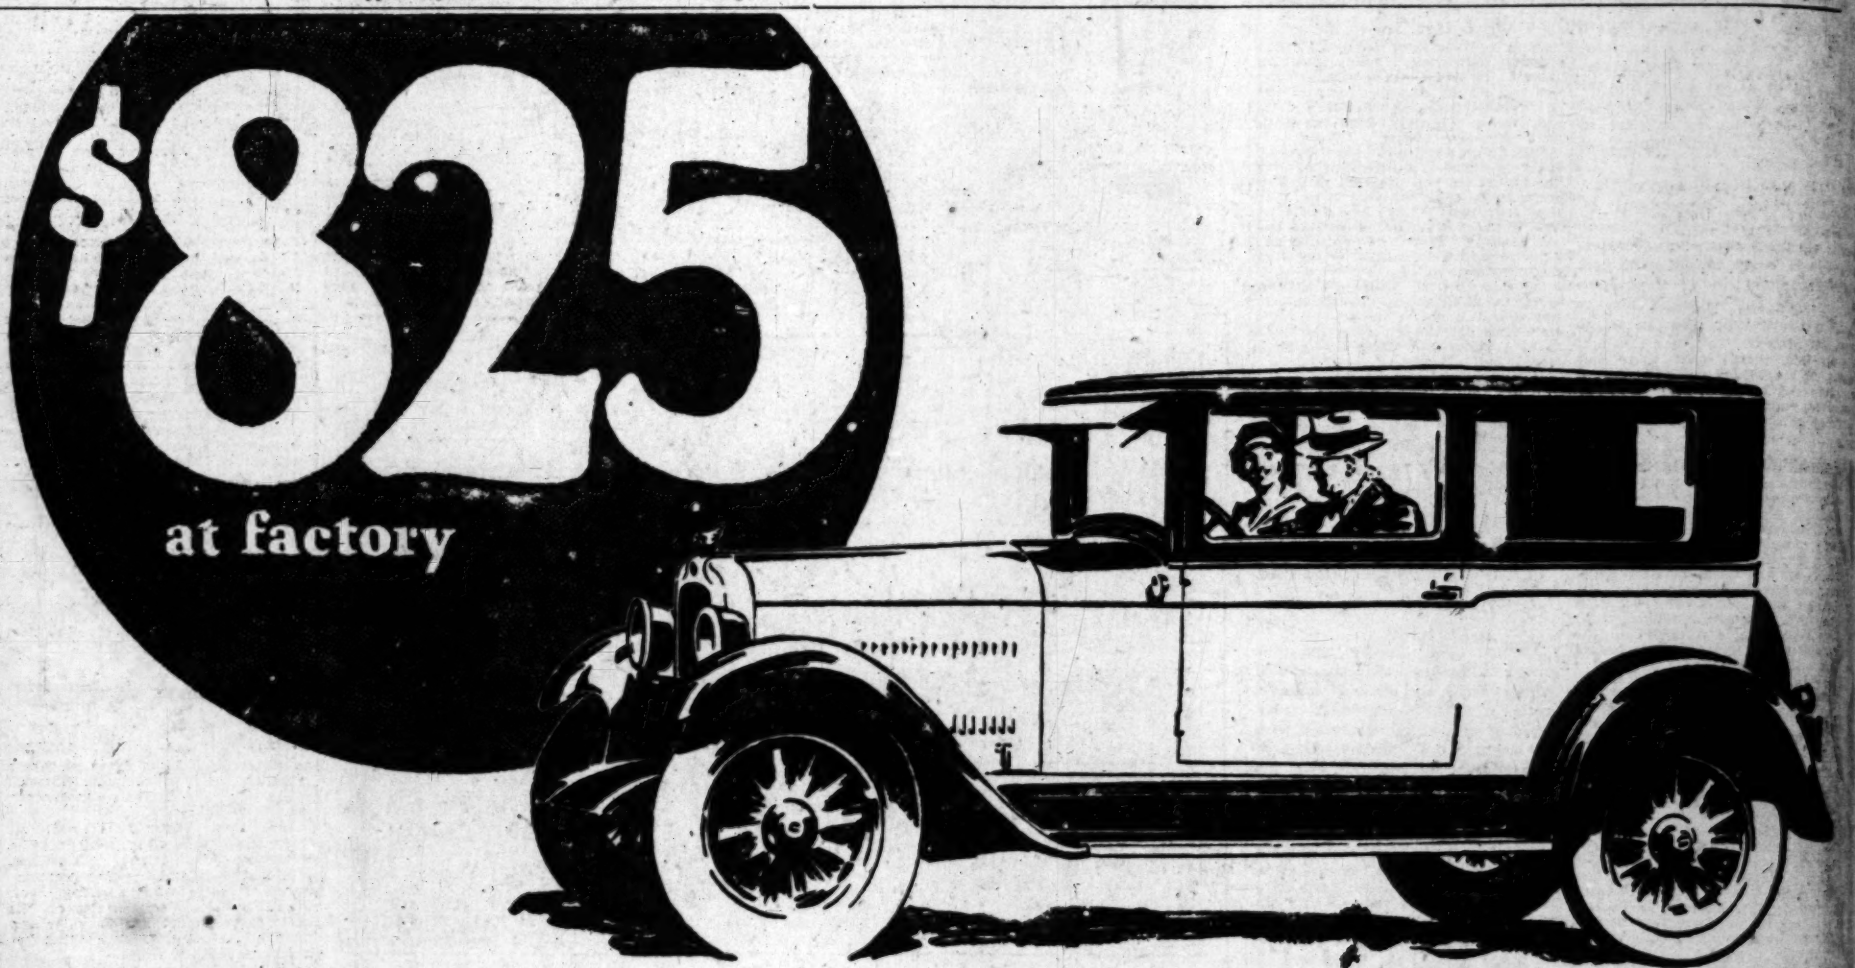

Talk of Conspiracy Branded Atmospheric Fiction

WASHINGTON, Jan. 3. (AP)—Denial that Famous Players-Lasky Corporation is or ever has been a combination in restraint of trade was made in a final brief filed today with the Federal Trade Commission, in answer to charges that the motion-picture producers were engaged in unfair trade practices. Oral argument will be heard on the 26th inst.

The brief was filed on behalf of Famous Players-Lasky Corporation, New England Theaters, Inc., Southern Enterprises, Inc., Adolph Zukor and Jesse L. Lasky. "All this talk about conspiracy to give atmospheric fiction," said the brief.

The three original producing companies of the corporation never were in competition, it was declared, but were part of a single venture. Denial was made that entry of the corporation into the field of exhibition was part of any conspiracy in restraint of trade, and it was asserted that the corporation ownership of theaters was lawful and had not destroyed competitors.

The practice of "block booking" was defended and denial was made that unpopular pictures are "tied to" popular productions to force exhibitors to buy "all or none."

New and Unequalled a year ago -and still unequalled today

When the Pontiac Six was introduced a year ago it represented an automotive development so new and revolutionary that the public was literally overwhelmed.

At the almost unbelievable price of \$825, it offered qualities of beauty, comfort, performance and reliability previously undreamed of among low-priced sixes.

Although it was new in the public sense it was then actually over three years old. For it represented more than thirty-six months of continuous development on the part of General Motors and Oakland engineers—development carried out, not only in the finest research laboratories of the industry, but also at the great General Motors Proving Ground.

Since then over 76,000 Pontiac Sixes have been built—the largest first year production ever achieved by a new make of car. And that wildfire buying enthusiasm continues unabated—because no other car

gives what Pontiac Six does at the price.

Search the whole field of low-priced sixes and you simply cannot find at Pontiac prices such features as Fisher Bodies of surpassing beauty, style and ruggedness; 46 lb. crankshaft; full pressure oiling; the costliest type of interchangeable bronze-backed bearings and semi-steel pistons.

Go even into the medium-priced field and you will not find any six-cylinder power plant giving such definite assurance of long life and thrilling performance—for the Pontiac Six engine is the largest used in any six selling up to \$1000.

The blunt truth is, that wherever you go and however you compare, you cannot find in any other low-priced six so many instances of sound design and sound construction—such definite assurance of lasting satisfaction.

For the Pontiac Six is just as new and unequalled today as it was a year ago!

Pontiac Six, \$825 to \$975. Oakland Six, companion to Pontiac Six, \$1025 to \$1295. All prices at factory. Bodies by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.

Picture Corporation Denies Thrilling Competition

Talk of Conspiracy Branded
Atmospheric Fiction

WASHINGTON, Jan. 3. (P)—Denial
of a conspiracy between the
Picture Corporation and the
Lasky Corporation in answer
to charges that the motion-picture
industry was engaged in unfair
practices. Oral argument will
be heard on the 26th inst.

The brief was filed on behalf of
the Picture Corporation, which
is a subsidiary of the Lasky
Corporation, and the Lasky
Corporation, which is a subsidiary
of the Picture Corporation.

The three original producing com-
panies of the corporation never were
in competition, it was declared, but
were part of a single venture.

It was made that entry of the
corporation into the field of exhibi-
tion was part of any conspiracy in re-
spect of trade, and it was asserted
that the corporation ownership of
theaters was lawful and had not de-
stroyed competitors.

The practice of "block booking" was
denied and denial was made that
popular pictures are "tied to"
other productions to force exhibitors
to buy "all or none."

crease in "the supply of suckers" in
night clubs was noted by the New
York World today. It says the clubs
at their best are no more than poor
substitutes for the old-time saloon
back-rooms, and at their worst hang-
outs for white-collar thieves.

The ever-increasing prices, the
newspaper asserts, are but camou-
flage for dwindling patronage. The
better class of citizen, it says, de-
clines to be further made a "sucker"
by "as educated a group of money
seekers as this city has developed in
its sophisticated history."

Poor food, worse liquor and cheap
entertainment, says the World, are
offered for "the boys from the Bronx
or Brooklyn or from Yale, Harvard
and Princeton," or "for the male or
female spender, sucker, fall guy, easy
mark or whatever you want to call
it."

On New Year's Eve, the World says,
the clubs with cover charges as high
as \$40 an empty plate, synthetic
liquor at \$20 a quart, and not 2c to
drink, and water at \$2 a pitcher, set
the stage for the greatest clean-up in
Broadway's history.

But, according to the World, the
"clean-up" failed to materialize. By
3 o'clock, when gaiety was supposed
to be at its height, many of the clubs
already were dark. While reservations
were heavy it was only the "sucker"
and "elderly playboy" with money to
squander, who remained, says the
World.

Night club prices quoted by the
World follow:
Half pint ginger ale, 41c; ten
cigar brand cigarettes in special pack-
age, 41c; four small roses arranged as
a boutonniere, \$4.50; Rhine wine with

bicarbonate of soda, known as cham-
pagne, \$25 a quart; two orders pota-
toes, \$3.50; two celery and olives,
\$2.50; two bread and butter, \$2; two
coffees, \$2; and one quart of liquor,
\$20.

In an analysis made by one news-
paper of seventeen samples of liquor
bearing labels of famous brands not
one was found to be genuine. Several
contained poisons. There have been
223 alcoholic cases at Bellevue Hos-
pital since Christmas. The holiday
liquor death toll has mounted to
forty-four.

Soviet Envoy's Millions Melt to Five Pounds

LONDON, Jan. 3. (P)—Five one-
pound notes, about \$25, were the
total assets left by Leonid Krasin,
soviet envoy to Great Britain who
died recently, soviet officials said to-
day.

Since his death, estimates have
been made in newspapers that his
estate was between \$10,000,000 and
\$15,000,000, but the soviet officials
said that he owned no property.

BANK MESSENGER KIDNAPED
ST. PAUL, Jan. 3. (P)—A bandit
kidnaped a messenger in the lobby
of the American National Bank here
today, while scores of persons passed
within a few feet, forced him to ride
in an automobile to an isolated part
of the city and robbed him of \$5000.

CANCER CURES FOUND GAINING

Berkeley Scientists Announce
Results of Long Study

Radium Credited With Saving
Cases Formerly Hopeless

Treatment Recommended
Along With Operations

SAN FRANCISCO, Jan. 3. (Exclu-
sive)—Cancer cures are increasing, say
University of California scientists,
who have carried on an eight-year
investigation of this subject, and
who attribute the increase to the
advent of radium in medical prac-
tice.

"The possibility of cure in cancer
cases of the so-called operable vari-
ety has increased from 40 to 60
per cent," states Dr. Frank W. Lynch,
professor of obstetrics and gynecol-
ogy at the university hospital here.

"Ten per cent of the cases formerly
considered hopeless can now be
saved through radium treatment,"
Dr. Lynch says, basing his assertions
upon a follow-up survey of cases.

Dr. Lynch recommends that all op-
erations for cancer should be fol-
lowed by radium treatments.

Because the permanency of can-
cer cures cannot be determined un-
til a number of years after treat-
ment, and because of the difficulty
of keeping complete records on pa-
tients after they leave the hospital,
most general statements regarding
the comparative value of surgery and
radium treatment in the past have
been based on too slight evidence to
be dependable, Dr. Lynch explains.

For this reason, he says, the series
of follow-ups just completed form
an outstanding achievement that
will enable the hospital to carry on
cancer work with greater chances of
successful cure than ever before.

TOWN UP AGAINST IT AS TWO SETS OF OFFICIALS GRAB REINS

UNION CITY (N. J.) Jan. 3. (P)—
A burlesque of city government was
given today as two sets of officials
played battledore and shuttlecock
with municipal affairs.

One set was appointed under the
Democratic regime of Mayor Boylan
before it terminated New Year's Day.
The other group are appointees of
Mayor Mohr and his Republican-Pu-
son band.

Today's confusion seems likely to
continue until the courts shall have
decided which group of officials is
entitled to rule.

A man arrested on a charge of
driving an automobile while intoxi-
cated was taken before Recorder's
Clerk Day, Democrat, to be arraigned,
but Republican Recorder Umanaky,
who happened to be present, ques-
tioned Day's right to act.

A heated verbal fight ensued, with
Police Chief Menge insisting the man
should be tried by Umanaky, and A.
Michael Leppore, former President of
the City Council, siding with Day.

Arraignment finally was postponed
indefinitely, pending decision of Po-
lice Commissioner Cox.

As a result the mortality follow-
ing surgery was high, but this com-
parison was not a correct one. When
hopeless cases are not included, it
becomes apparent that radium
alone, and that radium and surgery
together yield by far the best re-
sults.

"One of the interesting results of
the discovery that apparently the
body builds up a resistance against
the disease as its malignancy in-
creases. Radium and general phys-
ical upbuilding will not aid early
cases more than surgery, but when
the case has reached a stage where
help from surgery is out of the
question, nearly 100 per cent may be
saved by radium and accompanying
health treatment. It has been shown
by California doctors."

When radium first came into the
field of medicine it was used on
cases pronounced hopeless by sur-
geons. The results were so remark-
able that a wave of enthusiasm im-
mediately led to its use in all cases.
But since the permanency of cures
cannot be determined in less than
five years most of the impressions
regarding its efficacy were too op-
timistic. Literature on the subject
now shows that radium alone in
cases diagnosed as operable will save
less than 50 per cent of the patients,
or about the same percentage it was
possible to save in this type of case
before the use of radium was adopted.

A common fallacy among advo-
cates of radium lies in misinterpre-
tation of figures. They take the
proportion of cures of surgically

treated cancer cases before the ad-
vent of radium and compare it with
results achieved with radium alone
to prove that radium is better. But
they forget that before the advent
of radium surgery was the only
known treatment and death the only
alternative; so operations were at-
tempted regardless of how hopeless
it might seem on the off chance
that a cure could be effected.

COMPARISON INCORRECT
As a result the mortality follow-
ing surgery was high, but this com-
parison was not a correct one. When
hopeless cases are not included, it
becomes apparent that radium
alone, and that radium and surgery
together yield by far the best re-
sults.

One of the interesting results of
the discovery that apparently the
body builds up a resistance against
the disease as its malignancy in-
creases. Radium and general phys-
ical upbuilding will not aid early
cases more than surgery, but when
the case has reached a stage where
help from surgery is out of the
question, nearly 100 per cent may be
saved by radium and accompanying
health treatment. It has been shown
by California doctors."

ELLEN TERRY STRICKEN BY BRONCHITIS

Aged Actress in Serious
Condition After Exposure
to Chill Christmas Day

LONDON, Jan. 3. (P)—Ellen Terry,
the actress, is seriously ill from bron-
chitis at her home here. She passed
a fairly comfortable night and her
daughter, Miss Edith Craig, said this
morning she is much more hopeful.
Miss Terry is in her seventy-ninth
year.

Miss Terry suffered a chill on
Christmas Day after attending a
Shakespearean matinee. She had
promised to attend the first perfor-
mance of "Macbeth," starring Cyril
Thorndike and Henry Ainley on the
same evening, and her daughter and
friends had difficulty keeping her
home despite her illness.

The noted actress has long caused
anxiety among her friends and family
by overtaxing her strength in con-
nection with theatrical affairs in
which her interest has not abated.
In addition her sight is not as good
as it once was and her friends are
constantly in fear that she will meet
with an accident.

Court Refuses Reopening Suit Against Actress

NEW YORK, Jan. 3. (P)—The ap-
plication of Mrs. Mabel Manton, di-
vorcee wife of William K. Manton,
actor, to reopen her \$50,000 aliena-
tion of affections suit against Mar-
jorie Rambeau, actress, was denied
today by the Supreme Court.

Mrs. Manton's divorce suit naming
Miss Rambeau as corespondent was
dropped last February when husband
and wife effected reconciliation
while the jury was deliberating. The
alienation action, which had not yet
been brought to trial, also was
dropped at that time.

The divorce action was reopened in
December, however, and Mrs. Man-
ton granted a decree.

GRAND RAPIDS BANK ROBBED
GRAND RAPIDS (Mich.) Jan. 3. (P)
Two men robbed the Kent State
Bank branch here today, overpower-
ing three employees and escaping
with \$13,000.

CREDITORS'

Closing Out Settlement Sale
of
Oriental Rugs

At Adom's, 3140 Wilshire Blvd.
Beginning
Thursday, Jan. 6th, 2 p.m. and 7:30 p.m.
And continuing Friday and Saturday, 2 p.m. and 7:30 p.m.

ADOM'S has been precipitated into a situation that has left them unable to con-
tend with the matter presented. They are compelled to hold an Auction Sale to
satisfy their Creditors who have been pressing them continuously.

It is a collection of Oriental Rugs that truly is representative of only the best in
weaving, and second to none in the city. The collection contains many pieces
that must be called connoisseurs' Oriental Rug Arts, and include Kashans, Kir-
manshahs and Sarouks. It hardly seems possible that such Persian and Chinese
Rugs have to be disposed of at Auction, irrespective of their intrinsic worth, but
such is the case.

The sizes range from the smallest to the extra large and will satisfy the most dis-
criminating as to colorings, designs and quality.

The point must be stressed that such an opportunity to purchase at Auction from
such a collection has never been presented in Southern California. AN AU-
CTION CREATED ONLY THROUGH THE PRECIPITATED AC-
TION OF CREDITORS.

Must the American Theatre Be Salacious to Live?

WHAT is it that you—the public—want? Is the present deluge of sex plays, which reflect life in all its sordidness, a true indication of your desire? . . . Must a play, or a moving picture, be salacious in order to be successful? . . . Is the producer at fault? . . . Or is it the playwright, or the actor . . . or can the blame rightly be laid at your doorstep?

George Arliss, in his unusual autobiography, "Up the Years from Bloomsbury," now for the first time drops

the mask and shows us the man himself behind his diabolically clever characterizations. Fitted above all others by his international experience, he speaks authoritatively on a subject which concerns everyone.

Don't miss the opening installment of this intimate recital of a life which is interwoven with stage celebrities of this and an earlier age. Beginning in the January issue of The Journal, now on sale, ten cents.

This Hero Business By Lt. Com. BYRD, U.S.N., Retired

Hero worship from the hero's viewpoint. If you became overnight the center of the nation's spotlight . . . if your every action was news, and front page news at that . . . if your personal privacy was suddenly pierced by pitiless publicity, how would you feel? . . . You will know how it feels to be a hero if you read this human article by the first man to fly over the North Pole . . . Lieutenant Commander Byrd, United States Navy, Retired. In the January issue of The Journal, now on sale, ten cents.

What a Nice Girl Can Do By Larry Barretto

To make him ask her. Particularly when she is very beautiful, and very, very rich, and when she wants someone—more than anything else in life. Jacinth didn't know the answer, herself, at first. But at last she found out—and you'll enjoy her solution as much as she did. In the January issue of The Journal, now on sale, ten cents.

39 ADDITIONAL FEATURES

IN the January issue of The Journal you will also find five delightful short stories and novels by such favorite authors as Booth Tarkington, Clarence Budington Kelland, and Dorothy Black. Then five fine special articles—including Part II of Harry Emerson Fosdick's "A Pilgrimage to Palestine." Fashions, Better Housekeeping, Needlework, Interior Decoration, Art Features, Poems, a page of Kewpies for the children, Editorial, etc., etc.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. [Advertisement.]

**Don't scratch
that rash—
Get rid of it!**

Every time you scratch that itching spot, you only increase the inflammation. Reimol Ointment applied lightly stops the itching, allays the irritation and brings comfort almost immediately. Reimol is also an excellent household dressing for burns, scalds, boils, chafing, stings, etc. Get a jar from your druggist and see how it hastens the healing.

PARIS DIVORCE ROW RENEWED

Chaplin Suit Rumor Brings
Wail from France

American 'Shysters' Accused
of 'Fixing' Laws

Protest Made on Invasion of
Crowded Courts

PARIS, Jan. 3. (Exclusive)—Rumors that Charlie Chaplin is seeking a divorce in Paris, while unconfirmed and generally discredited, have revived the protests against the methods by which American divorces are obtained which two years ago resulted in the adoption of closer restrictions.

Previously the French courts granted decrees in all uncontested cases of foreigners and Paris became the happy hunting grounds for those seeking marital freedom. The publicity resulting from the numbers of prominent persons involved in these suits attracted the attention and protests both of the French and American legal professions, and the subsequent adoption of the rule requiring the complainant to establish residence in France and the limiting of the grounds for divorce to the grounds in which divorce may be obtained in their home states.

It is charged, however, that with the aid of numerous American divorce lawyers the stipulations are easily evaded, while the French press and secrecy regarding evidence submitted more than make up for the somewhat increased costs, including steamship fare.

Exposing the existing conditions in the American divorce colony the Paris newspaper *Liberte* tonight declares "hundreds of Americans come to France annually, taking advantage of the good faith of the French courts, unable to verify all the evidence submitted, and thus rendering decisions often times contrary to law."

Numerous American shysters are becoming wealthy "fixing" rapid divorces for hasty couples. Residence is established simply by purchasing identity cards, while the French courts take the word of the lawyers regarding the United States laws applicable in individual cases. These American lawyers merely turn over certain information to French assistants, who obtain the decrees, the American attorneys charging anywhere from \$500 to \$3000 fee, whereas the average expense of getting a divorce seldom is more than \$157.50.

The article closes by protesting against the Americans invading the already overcrowded French courts.

LAST MEETING HELD

State Highway Commission in Final Session Awards Contract

SACRAMENTO, Jan. 3. (AP)—The State Highway Commission met in Sacramento today in its farewell session. The three members were in attendance.

The last official acts of the body were to award the United Concrete Pipe and Construction Company of Los Angeles the contract for paving a stretch of the Oxnard-Capistrano highway through the city of Laguna Beach, and the rejection of bids for the construction of the Carlsbad overhead crossing in San Diego county.

SUICIDE EPIDEMIC IN VIENNA

Self-destruction Attempted by Young and Old, Rich and Poor, Often for Pure Love of It

VIENNA, Jan. 3. (Exclusive)—Figures just compiled show that Vienna's suicide epidemic in 1926 caused 720 deaths. More than 1100 persons were maimed—these trying to die, but failing. This is a more astonishing total than the earlier post-war years produced, when misery ruled the capital. A sinister book, which is kept in the hundreds of Vienna's old nobles and one time wealthy personages, whose fortunes and homes were swept away after the war to seek death. The 68-year-old widow of one of Austria's greatest generals took gas not so long ago. Another case is that of a doctor, formerly on the Austrian general staff, in the war, who took an overdose of morphine. Still another was the 41-year-old wife of an impoverished ministerial councillor, who shot herself.

HOUSING CONDITIONS
Although the city's financial dictator, Herr Brettnner, scolds the economic laws and keeps the rates almost to nothing, the housing shortage has been a big factor, many preferring to kill themselves rather than hunt a new apartment. In the pocket of a fairly prosperous woman, who threw herself and two babies under a street car, the police found an eviction notice.

SCIENTIFIC FERVOR
With an almost scientific fervor the municipality notes every case in the grim tome which is potentially the greatest treatise on suicide in the world. It devises tables from which may be determined in what month, in what weather and at what hour, a bald, blue-eyed gentleman of 40 is most likely to grow tired of life, and what means he will take to carry out his resolution.

One out of three whose tragedies are dissected in the book is a woman, one out of six a child. The oldest victim was 80 years of age, and the youngest three. Although there is a romantic conception to the contrary, every disconsolate Viennese does not leap into the Danube. Gas is the means of self-destruction in 60 per cent of the cases. In Budapest, where the citizens jump into the Danube so persistently, the city's forces maintain a suicide patrol along the river promenades. Here it is mostly lovers or children who fall prey to the mood of disillusion and end it all in the old river.

Caught in an anchor chair, barge-men recently found the bodies of two girls of 16 years of age, who had bound themselves together with a crimson shawl and drowned in each other's arms.

It is hopelessness now, more than the first chill of misery, that is driving

WESTERN GRAIN RATE CONFERENCE CALLED

WASHINGTON, Jan. 3. (AP)—A conference of grain shippers, railroad traffic officers and representatives of Western State Railroad Commissions was called today by the Interstate Commerce Commission to be held at Kansas City the 20th inst. for the purpose of formulating plans to cope with the investigation into levels of rates on grain and grain products throughout the western district. The commission will fix dates and places for hearings after consulting the interests involved.

HUGHES SCORES RAIL VALUATION

Los Angeles and Salt Lake
Case in High Court

Commerce Commission Rate
Making Data at Issue

Decision Must Affect All
Lines in Country

WASHINGTON, Jan. 3. (AP)—The valuation, representing approximately \$20,000,000,000, which the Interstate Commerce Commission must place upon the 1800 railroads of the country, today was at issue before the Supreme Court.

The case, which was won by the Los Angeles and Salt Lake Railroad in the lower court and is in the stage of oral argument on appeal by the government before the highest court, is regarded as a test of all the valuation work of the commission, which has been proceeding for several years under an act of Congress.

Objecting to the figure of \$45,000,000 placed upon the railroad, Charles E. Hughes, counsel for the railroad, insisted that the whole system of valuation by the commission was erroneous and should be discarded. Government counsel argued that the commission had faithfully carried into effect the intention of Congress, and had properly proceeded to value the railroads of the country for rate-making purposes.

In view of the importance of the issues presented, the court allowed additional time for the oral argument of the case, and it will be concluded tomorrow.

FEDERAL FORCE TO BE REDUCED
NOGALES (Aris) Jan. 3. (Exclusive)—Information has been received by Mexican officials of Nogales, Son., that a deep cut may be expected in the number of Federal employees, this in pursuance of a general retrenchment program ordered from the City of Mexico. A similar cut was ordered eight months ago.

No. 1 of a Series of Advertisements, showing the Progress being made at El Sereno Country Club.

GOLF 15 minutes from your office

FIFTEEN Minutes from Your Office... El Sereno, on the edge of town... what a revelation in country clubs.

El Sereno...close enough for the business man, far enough out to breathe of the open.

It's membership, recruited from among the most representative business and professional men and women of Los Angeles, Pasadena, Alhambra, Hollywood and other nearby cities, will soon enjoy its full facilities.

Over its great 18-hole, championship golf course, designed by the internationally famous golf course architect, John Duncan Dunn, many brilliant matches will soon be staged by this membership.

Harry Cooper, El Sereno's professional, one of the three ranking players of the world, is daily winning new laurels for his Club.

OTHER ACTIVITIES

Chief among the many added features that go toward making El Sereno the complete Country Club, might be mentioned:

Tennis Courts, and a great natural gallery... Indoor Swimming Plunge and Wading Pool... A Unique Sand Beach... Trapshooting Lodge and Range... Saddle Horses and Ponies... Luncheon Club, Supper Club, Dinner Club... Dancing.

PROGRESS

From the start, El Sereno has progressed rapidly. Nine months ago but a dream...today, an actuality.

Its great all-grass, 18-hole golf course is finished and rapidly being brought into play.

All roadways have been completed, and the entire property fenced.

Trapshoots in daily operation, with complete facilities available.

Stables open. Many fine saddle horses ready, ponies for the children. Stable facilities and equipment of the very best. Competent instructors. El Sereno's \$150,000 club house is now under construction, and is rapidly being rushed to completion.

Harry Cooper, El Sereno's professional, one of the greatest match-play golfers in the world, is on the job and eager to meet the members.

J.C. Knuth, El Sereno's new manager, assumed his duties the first of the month.

El Sereno's entire personnel is now preparing for the great official opening, the date of which will be early in April.

A NEW LIMITED OPPORTUNITY

For a short time only, El Sereno is making an offer of its Regular Membership at a substantial reduction. During this limited period El Sereno offers those who can qualify its regular \$330 membership for only \$220.

This membership may be purchased for a very moderate down payment, and the balance due over a period of seven months.

The Board of Directors reserve the right to discontinue the sale of this membership, at this great reduction over the regular fee, at any time, without notice.

Fill Out This
Coupon

Should you desire to know more about El Sereno, before considering this exceptional offer, simply fill out the coupon below. There is no obligation.

THE GROWTH IN FIGURES

DO YOU KNOW THAT

—The building permits in SAN BERNARDINO for the past three years amounted to \$10,622,805?
—The building permits for the three previous years amounted to \$5,572,840?

ALMOST DOUBLE IN PAST THREE YEARS

—The assessed valuation of SAN BERNARDINO as shown by the County Assessor in 1920 was \$21,674,520? And in 1926 the assessed valuation was \$38,251,500?

A REMARKABLE INCREASE

—There were enrolled in the schools of SAN BERNARDINO in 1920, 3607 pupils? And in 1926, 7153 pupils were enrolled?

ALMOST DOUBLE AGAIN

—The population, U. S. official census, in 1920 was 18,721? The present population, conservatively estimated on these growth figures, 38,565?

DOUBLE AGAIN.

SHERWIN HURLS RETURN CHARGE

*Blames Goodyear Debacle to
Mismanagement*

*Accuses Seiberling of Using
Company Funds*

*Declares Reorganization
Only Paid Expenses*

AKRON (O.) Jan. 3. (Exclusive)
In answer to the \$15,000,000 suit of
nine Goodyear Tire and Rubber Com-
pany stockholders, John Sherwin,
Cleveland banker, asserts financial
mismanagement of the company prior
to the debacle of 1920 and the per-
sonal use of its funds by its then
president, Frank A. Seiberling, was
largely responsible for the form of
the reorganization and huge financ-
ing which followed.
Sherwin made his separate answer
in Summit county Common Pleas
Court today.

Sherwin was sued with Clarence
Willon of Dillon, Read & Co., New
York financial house, November 19,
by a group headed by F. C. Tomlin,
son of Ironton, O., and including
four prominent Clevelanders.

MADE ONLY EXPENSES
Sherwin denied the statements of
the plaintiffs that he, with Willon,
had taken the management of the
company and thereby made them-
selves trustees, and said his relation-
ship to the reorganization was as a
representative of a group of bank
creditors.

The answer details the profits made
from handling of Goodyear securities
both by Sherwin and the Union
Trust Company of Cleveland, and
whose board he is chairman. The
Union Trust, Sherwin says, distrib-
uted more than \$16,000,000 in Goodyear
securities and made \$416,000
gross, out of which it got its ex-
penses.

Sherwin said he personally made
\$85,594 in open market transactions
in Goodyear stock, got \$10,000 for
his work under the management agree-
ment and received \$1000 in divid-
ends from the management stock.
In addition Sherwin said he is the
owner of a large interest in the Mid-
continent Securities Company which
since 1923 has made \$90,346 in pur-
chases and sales of Goodyear securi-
ties on the open market. If its pre-
sent holdings are computed at mar-
ket value.

GIVES DISTRESS CAUSE
This is the compensation, Sherwin
says, which he received for "the great
amount of time spent and the ex-
penses incurred by him in attend-
ing the numerous conferences and
doing the other work incidental to
the reorganization, nor has he at any
time, directly or indirectly, profited
from its ownership of the man-
agement stock, the purchases and
sales of Goodyear securities herein-
before mentioned, being made in the
open market and under the same op-
portunities that any private investor
enjoys."

"Goodyear's acute distress in the
fall of 1920," the answer says, "was
not solely the result of the depres-
sion of that year, but was in large
part due to the financial misman-
agement of Goodyear. For years
Goodyear had paid extravagant divid-
ends both in stock and in cash and
had failed to maintain either ade-
quate reserves or adequate working
capital."

"Immediately prior to the depres-
sion Goodyear had been obligated by
its management on commitment
contracts for fabric, rubber and oth-
er raw materials at extr. vantage prices
for long periods of time, and in ex-
cess of its then reasonable require-
ments, with the result that the fail-
ing market of 1920 caught Goodyear
short of cash and without ability to
borrow necessary funds."

"The exact liability under said
commitment contracts was not then
known, and has never been definitely
ascertained, but the defendant is in-
formed and therefore avers that it
approximated \$10,000,000 and
throughout the period of reorganiza-
tion hereinafter set forth created an
uncertain factor involving the possi-
bility of further losses, which made
it difficult both to procure finan-
cial relief and estimate the amount
of financial relief required."

CHARGE USE OF FUNDS
"In addition to this, for years
Frank A. Seiberling had, as this de-
fendant is informed, without the
authority of Goodyear's board of di-
rectors used money and other cor-
porate funds of Goodyear for his own
personal and private purposes, and
amount so used during the annual
periods ending October 31 being ap-
proximately as follows:
1912, \$150,000; 1913, \$380,000; 1914,
\$480,000; 1915, \$570,000; 1916, \$1,200,000;
1917, \$1,880,000; 1918, \$1,370,000;
1919, \$2,070,000; 1920, \$3,840,000.

"A portion of the sums so used
were by checks drawn in Goodyear's
name and on its bank account ex-
ecuted by Frank A. Seiberling as its
then president and payable to his
order, which checks were cashed and
their proceeds utilized by him."

"These uses of corporate funds
were secreted from knowledge of cred-
itors and stockholders by repaying
the money so used each year prior
to the annual audit and again us-
ing said funds, together with addi-
tional sums, soon after the date as
of which the annual audit was tak-
en."

"The annual balance sheets of
Goodyear thus showed cash or its
equivalent for the substantially in-
creasing funds so used, while as a
matter of fact these funds were used
by Frank A. Seiberling in large part
for the personal and private uses of
himself and family."

Seiberling said in Akron today that
his reply to these statements of Sher-
win would be made through the
courts as the case proceeds.

**PRESIDENT OF COAST
GROCERS SUCCUMBS**

SAN FRANCISCO, Jan. 3. (Exclu-
sive)—Frank B. Connolly, president of
the Pacific Coast Retail Grocery As-
sociation, secretary of the California
Retail Grocers' and Merchants' Asso-
ciation, and past president of the
national organization, died here to-
day from complications of blood poi-
soning and pneumonia. He also was
editor and manager of the retail
grocers' State trade publication and
had been prominently identified with
the trade for two decades. Funeral
services are to be held tomorrow.

Men Who Learned Banking in the Middle West

AMONG THE DIRECTORS OF
the Farmers and Mer-
chants National Bank who
have a particularly fine back-
ground of banking experience are
Gurdon W. Wattles and T. E.
Newlin. Both are from the
Middle West.

Mr. WATTLES was born in Iowa,
became a banker and in time
moved to Omaha where he
assumed a leading position in busi-
ness and banking circles. When
he came to Los Angeles a few
years ago, his reputation had pre-
ceded him and he was promptly
selected as a Director of the
Farmers and Merchants National
Bank. He is President of the
Municipal Bond Company and is
recognized as a sound, careful
financier of high integrity.

Mr. NEWLIN received his bank-
ing education in Lawrence, Kan-
sas. After coming to Los Angeles
he was elected County Clerk, a
position he filled with ability and
credit to himself. He came to the
Farmers and Merchants National
Bank as Vice-President in 1903,
and served continuously until
January 1925, when he retired to
devote himself to horticultural
pursuits. He is a Director both in
this bank and the Security Trust
& Savings Bank, and his services
are highly valued.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

Better Than Soda
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid

fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle
Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.—[Advertisement.]

The Priceless Voice of Martinelli

Why He Recommends Lucky Strike
—Because "It's Toasted"

GIOVANNI MARTINELLI, famous tenor of the Metropolitan Opera of New York City, is a great singer and he prefers Lucky Strikes for two reasons—greater enjoyment and throat protection.

Lucky Strikes have become the favorites of men whose priceless voices thrill their audiences, as they have with the millions, because, first, they afford greater enjoyment, and, second, they are certain not to irritate even the most sensitive throat.

The world's finest Turkish and domestic tobaccos, properly aged, perfectly blended, give them their richer flavor.

But in addition, a costly extra process—toasting for 45 minutes—develops the hidden flavors of the choicest tobaccos and at the same time removes all "bite" and harshness.

Smoke Lucky Strikes. They give added pleasure—you'll like them.

"It's toasted"

NOTICIAS MUNDIALES DE ULTIMA HORA

NOTAS TELEGRAFICAS

Calícuta Comienza a Reconstruir

CALECUTO, Enero 3.—Si los planes formulados por el comité de auxilios de los ciudadanos se llevan a cabo, van a proyectarse en esta ciudad edificios capaces de soportar los temblores mejor de lo que los soportaron los que sufrieron desperfectos el sábado y el domingo, durante la serie de sacudidas sísmicas que se sintieron en el Valle Imperial.

Esta noche ha anunciado el alcalde West que ya se han iniciado las negociaciones necesarias para que algunos ingenieros constructores inspeccionen los trabajos de reparación y reconstrucción que van a hacerse en numerosos edificios dañados por las perturbaciones citadas.

Van a Facilitarse los Préstamos a Veteranos

WASHINGTON, Enero 3.—La administración manifestó hoy confianza en que la mayor parte de los bancos estarían dispuestos a hacer préstamos sobre los títulos de seguros de los soldados, pues ya el congreso estaba estudiando los pasos necesarios para autorizar al Negociado de Veteranos a que prestara dinero sobre esas garantías.

Aunque, según las noticias recibidas por el Negociado referido, sólo una mitad de los bancos habían comenzado a aceptar los títulos, que hoy adquirieron ya un valor en el mercado, el ministro Mellon expresa su esperanza de que los bancos van a buscar pronto estos empréstitos como "cuestión de negocio."

Suscitase de Nuevo la Cuestión de Divorcios Americanos en París

PARIS, Enero 3.—Los rumores de que Charlie Chaplin está tratando de obtener su divorcio en París, por más que no están confirmados y que han sido desmentidos, han vuelto a despertar las protestas contra los matrimonios por los cuales se obtienen divorcios de norteamericanos, protestas que dieron por resultado hace dos años la adopción de mayores restricciones.

Antes concedían autos de divorcio los tribunales franceses en todos los juicios entre extranjeros, cuando no había disputa entre las partes. De allí que París se convirtiera en el edén de cuantos buscaban la libertad tras haber probado los lazos matrimoniales. La publicidad que resultó de haber apelado tanta gente significó a este recurso, provocó protestas del foro francés y del norteamericano, y trajo la adopción de un decreto que exige que el actor tenga residencia establecida en Francia, y que limite las causas de divorcio a las que se exigen en los Estados Unidos de donde proceden las partes.

Derrotado en una Elección, se Quitó la Vida

RED BLUFF, Enero 3.—H. G. Kunn, que fue veinte años Oficial Mayor y Registrador del condado de Tehama, entregó su puesto hoy a su sucesor, H. M. Koppin, y se dirigió luego a su casa que está a tres cuadras del Palacio de Justicia. Allí se sentó en su automóvil y se disparó un balazo en el corazón. El cadáver fue encontrado por su esposa, al volver ésta a la casa un poco después.

Según los artículos de la constitución del condado, Kunn estaba ya incapacitado para ser de nuevo candidato a Oficial del condado, y se postuló para sheriff en las primarias de Agosto; pero salió vencido en las elecciones. Tenía ya varios meses de andar mal de salud.

NOTAS LOCALES

McReynolds Sea Quizá Nuestro Nuevo Jefe "Seco"

Frank R. McReynolds, inspector de la renta interior en Sudcalifornia, va a ser tal vez el próximo administrador de la prohibición federal aquí, según se decía ayer.

Anunciaban unos mensajeros de Washington que el señor McReynolds, que ha estado en la ciudad capital por varios días, había sido invitado a una conferencia con el subsecretario Andrews, para hablar sobre el nombramiento de un administrador "seco" en Sudcalifornia y Arizona.

El señor McReynolds es veterano de la guerra hispano-americana y de la guerra mundial. En esta última sirvió con el grado de mayor. Vive con su familia en Compton.

Va a Lanzar Dieciséis Cintas al Mercado la Casa de Fox

En los talleres de películas de Fox reina la actividad, según rezaba una declaración publicada ayer. Anunciase en ella que se han completado últimamente dieciséis vistas, de las que algunas se están todavía tomando, y otras han quedado listas para proyectarse en estos días. La semana próxima pasará se batirá un record, pues en el curso de ella se completaron cinco cintas, según ha manifestado Sol M. Wurtzel, superintendente general. Siete compañías se hallan trabajando actualmente, y cinco van a comenzar a representar dentro de unos días más.

TRUÑO INCONSCIENTE

(Unconscious Hit)

Cuando Noel Coward, el comediógrafo y actor inglés, estuvo en Nueva York, contó en una comida un episodio del teatro (When Noel Coward, the English playwright and actor, was in New York, he told at a dinner a story of the theater).

"El teatro es cosa incomprensible", dijo. "Algunas veces le cuesta mucho trabajo colarse en él a un escritor o a un actor. A veces es cosa fácil. ("The theater is an incomprehensible sort of thing", he said. "Sometimes it's hard for a writer or actor to force his way in. Sometimes it's easy.")

"Una vez había escrito un chulo una comedia, y, previa cita, se presentó una tarde a ver al empresario con ese motivo ("There was once a chap, who had written a play, and he called by appointment one afternoon to see a manager about it).

Tartamudeaba horriblemente, pero, por supuesto, no mencionó tal cosa (He stammered horribly, but, of course, he made no mention of this fact).

Cowardus Northingus of England has been honored for turning out 1600 ivory dishes, each complete and perfect in detail, but so small that all of them could be put into an ordinary-size cup.

L.A. to San Diego... Speed Record SMASHED

141.9 MILES in 2 hours, 8 minutes

by **WADE MORTON** in **Duesenberg** Powered by **Red Chief Fuel**

Photo of WADE MORTON taken after speed record

CARRYING a deputy sheriff rushing to arrest a fugitive from justice before he could escape across the border near Tijuana, a Duesenberg stock roadster, using Red Chief anti-knock motor fuel, broke the Los Angeles-San Diego highway record on the last day of 1926, making the 141.9 miles in two hours, eight minutes.

The Duesenberg was driven by Wade Morton, and seated beside him was Deputy sheriff Harry E. Sylvester, Jr. The record smashed by the Duesenberg and Red Chief was held by "Cannonball" Baker, who drove a Rickenbacker over the same route last February in two hours, 49 minutes.

The new record was verified yesterday by the Postal Telegraph in Los Angeles and by the Western Union in San Diego. Morton checked out from the Postal Telegraph at 2:56 a.m. the official wire reading:

"Duesenberg leaves on the run to San Diego December 31 at 2:56 a.m. (signed) Postal Telegraph & Cable Co., per Harry C. Nichols."

Morton checked in at Western Union office in San Diego, Western Union office wiring: "Duesenberg arrives 5:04 a. m. December 31. (signed) Sam Harrah." Both wires are on file for examination by all who care to see them.

Wade Morton is one of the world's most famous automobile drivers. He captured the San Francisco-Los Angeles record, carrying Japanese earthquake photos to the Los Angeles Times in eight hours, fifteen minutes. He has raced Duesenbergs five times at Indianapolis, and he is the aviator who brought Gene Tunney to Philadelphia by airplane to beat Dempsey.

The San Diego record was captured because of the triple combination of speed, did driving, car and motor fuel. Red Chief was the lubricant used.

Red Chief is conceded by thousands of motorists to be the chieftain of the anti-knock fuels. Now it adds mount speed to its other attributes.

Red Chief will keep your motor in best health and give you most speed and Power. Red Chief has won the immediate favor of the Southland, because it really eliminated knocks without the barrier of a list of "DON'TS" for the motorist. Red Chief is not poisonous and you can use it as freely as you can ordinary gasoline.

Now drive to any station displaying "Red Chief Anti-Knock Motor Fuel" and treat your car to the paramount speed fuel.

"That's the Ticket" Rheumatism can't be rubbed away

Are you one of those unfortunates who suffer with pains in your muscles and joints, making your miserable, less efficient, interfering with your working hours, ruining your sleep?

You may have tried many things without relief. Why not try S.S.S. For more than 100 years it has been giving relief in thousands of cases, as testified in unsolicited letters of gratitude.

"I suffered from rheumatism for a good many years. At times my joints would swell so I couldn't walk. I tried most everything. Went to Hot Springs and finally I decided to try S.S.S. I took a course. In a short time the rheumatic pains entirely left me. I

also had a breaking out on my hands for years that nothing would heal, but now this has disappeared, and I am sure that it was S.S.S. which removed the cause. I am now in perfect health, and want to add that I have tried all kinds of medicines but I think S.S.S. is the best." Carl C. Campbell, 115 West Main Street, Johnson City, Tenn.

S.S.S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical. (Advertisement.)

BRITISH PARTIES 'TEAM' ON RIVAL

Tories and Laborites Plot
Squeeze of Liberals

Combine Urged to End Rule
of Minority Group

Move May Lure Lloyd George
Into New Alignment

LONDON, Jan. 3. (Exclusive)—The end of the Christmas holidays and return of the politicians, including David Lloyd George, to London has been the signal for an outburst of furious political activity, the results of which will be manifest when Parliament meets in February.

A series of meetings have been held among the various groups and the most surprising development is one aiming at the formation of a gentlemen's agreement between the Conservatives and Laborites to divide power as the two great parties in the state, supplanting the Liberals, whom Lloyd George is trying to reform into a party to hold the balance of power after the next election.

TO DIVIDE SPOILS
The reason for this is quite natural. If the Liberal party is eliminated for good, the Labor and Conservative parties can settle down to a series of square fights, with probably alternating terms, in which each will be able to do something toward carrying out its policies. If the Liberal party retains the balance of power it will be able to call the tune, no matter what parties nominally are in power.

The most important move in this direction was the dinner party last week at Lord Winborn's, attended by several Conservatives and Laborites. This was loudly heralded as an effort to secure peace in industry, but a participant declares that only politics were discussed. Prominent among the guests was Philip Snowden, financial expert of the labor party and a close friend of Lloyd George. It is believed that he has been trying to find some basis of agreement in which Lloyd George and his Liberal followers might support the Labor party. It is known that Ramsey MacDonald, J. H. Thomas and some other Labor leaders are opposed to the plan on the ground that it would put them at the mercy of Lloyd George.

STEAM ROLLER OILED

The Tories do not like the idea of three parties and as a result they suggested that some plan might be evolved by which certain seats would be recognized as definitely Labor or definitely Tory, therefore not worth contesting. This would leave the funds free for a real fight in the doubtful constituencies and it would be agreed that if the Liberals started anything in these constituencies, both of the large parties would combine to steam-roller them.

Labor also is planning a big drive against the Communists, which may lose them some votes, but they hope to make them up by gaining from the Liberal left wing. All this still leaves Lloyd George's personal future undecided and it is believed that Snowden would like to bring him into the Labor party, where some of his former followers, such as Commander Kenworthy, preceded him. MacDonald is known to be opposed to any such deal, but there is a strong movement in the party to replace MacDonald as leader with Thomas, who is sure to take a stronger line against the party of Communists and who is also a close personal friend of Lloyd George.

TWO MEN BURN AS STOVE FIRES SHACK

MESA, Jan. 3. (Exclusive)—The explosion of an oil stove used in connection with an asserted illicit distilling plant started a blaze that destroyed a lonely shack on the desert southeast of Flag and cremated William B. Blevins, 50 years of age, and Charles Zimmerman, 55. When neighbors arrived the walls and roof had fallen in on the occupants of the light two-story structure.

MRS. COOLIDGE HAS BIRTHDAY

She and President Celebrate by
Going to Dance at Capital
City Hotel

WASHINGTON, Jan. 3. (AP)—Mrs. Coolidge celebrated her forty-eighth birthday tonight by going with the President to a dance.

The function was the annual charity ball given for the benefit of the Children's Hospital here, the only affair of its kind that the President and Mrs. Coolidge are in the habit of attending. It was given at the Willard Hotel, and they watched the dances for half an hour from the Presidential box.

WHISKERINO CHAMPION INTERRED

Nevada Man Bequeaths
Fifteen-Foot Beard to '49
Camp Organization

RENO, Jan. 3. (AP)—The funeral of Zachary Taylor Wilcox, famous over the country as possessor of the second longest beard in the United States, was conducted today at Carson City, his home for years, but only two feet of his fifteen-foot beard was buried with the Civil War veteran.

Wilcox, who owed his fame as a "whiskerino" to his '49 camp celebration four years ago, in a will made in August, 1923, bequeathed his beard to the "Whiskers' Club of Camp '49," and yesterday the beard was shown, with the exception of nearly two feet.

The beard awaits the arrival in Carson City of official representatives of the Sacramento organization and it is understood that Sacramento has named J. L. Tucker and J. M. Higgins of that city to come to Nevada for the whiskers, which will rest in a glass case in the clubhouse of the organization.

WHISKERS WILL REPOSE IN CASE AT SUTTER'S FORT

SACRAMENTO, Jan. 3. (AP)—The growing whiskers of Zach T. Wilcox, whiskerino extraordinary, who died in Carson City last week, will find their last resting place in a glass case at Sutter's Fort here.

This has been decided by the Sacramento Whiskerino Club. Officials of the club plan to meet the box of whiskers at the station with a band, place it on a truck and escort it to the State Capitol. From there it will go to Sutter's Fort.

KNIFE WOUND FATAL

SAN FRANCISCO, Jan. 3. (Exclusive)—Henry F. Hemma dropped a knife while cutting kindling for a Christmas tree and it made a small cut in his leg. He died today from blood poison.

Has No Gas Now!

Once a woman of her age had to be careful! Today, she was anything but careful! A Stuart's Dyspepsia Tablet after the heartiest meal and you can smile at indigestion. Stomach, gas and belching. Ends sour stomach, belching. A sweet stomach for twenty-five cents.

Full Box FREE!
Every drugstore has Stuart's tablets, 25c and 60c. Or, full box free if you write E. R. Parker Co., Dept. N 69, Marshall, Mich. Get a month's box of Stuart's for the pocket—and keep it! Heavy sugar—bad medicine—high prices—Stuart's is a boon and blessing!

STUART'S DYSPEPSIA TABLETS

Saving Time
At the Dentist's

People with little time to spare can get their dental work done promptly in office using the E. R. Parker System. The old idea that you had to do a lot of waiting, make a lot of visits and go through a lot of professional red tape, is all wrong. That is what makes old style dentistry so costly and unsatisfactory.

Under the E. R. Parker System your teeth are examined without delay by an experienced dentist, who tells you at once what work your teeth need and what the price will be for doing it. If you decide to have your teeth cared for, the work can be done immediately. The work then proceeds without a single postponement, and is completed as soon as at the lowest price. The result is not only a saving of time, but money also. And, best of all, you will be satisfied, for E. R. Parker System Dentists are just as particular as you are. Examinations and advice free.

YAQUIUS HOLDING CHIEF PRISONER

Gen. Obregon Tells of Trial
of Gen. Matuz

Reveals Insurgent's Agree-
ment With De La Huerta

Federals Employ Starvation
Tactics Against Indians

HERMOSILLO (Son. Mex.) (On board train with Gen. Alvaro Obregon.) Jan. 3. (AP)—Gen. Alvaro Obregon, former President of Mexico, has discussed the status of the Yaqui rebellion in Sonora, at length in an interview granted to a representative of the Arizona Daily Star and the Associated Press in his headquarters on board a train bound for Cajeme, the General's home.

Gen. Luis Matuz, commander of the Yaquis, charged with entering into an independent and unauthorized agreement with Adolfo de la Huerta, is a prisoner in the hands of his own tribesmen, Gen. Obregon said, and is now undergoing trial at Tepic, Copacampo (muddy water) Sonora.

Regarding the imprisonment and trial of Gen. Matuz, concerning which no information has so far as he knows been given to the press, Obregon stated: "De la Huerta assured Gen. Matuz that sixty Federal generals commanding troops were ready to go over to the Yaqui side. When this proved false, the Indians blamed Matuz as well as De la Huerta for the fraud."

"Consequently they arrested Matuz and are now trying him, according to information we have received from Yaquis who have surrendered. The command is divided between Gen. Mori and Gomez, representatives of two rival factions among the Yaquis. Mori is now at Bacate and Gomez in the Coyotes District in front of Lencho.

"The government forces are using a starving out process against the Yaquis. We are guarding the food supply points and making the Yaquis expose themselves to open battle or starve to death. The rate of loss is one Federal soldier for every three Yaquis."

"Furthermore, formerly the government troops would take women and old men prisoners and feed them, while the Yaquis were correspondingly relieved of the burden."

Now, however, no Yaqui woman or other noncombatants are being taken by government troops, with the result that the Indians' food supply is so short that they themselves are sending their women, children and old men to Federal headquarters to surrender."

here are the winners! ARDEN CERTIFIED DAIRY BABY CONTEST

Robert H. Connelley,
Age 15 mos.
Second Prize Winner.

Kathleen F. Connelley,
Age 2 yrs., 3 mos.
First Prize Winner.

Christ Olive Miller,
Age 3 yrs., 7 mos.
Third Prize Winner.

400 Babies Scored Over 95%

This contest has proven conclusively the results of feeding infants the best milk obtainable. Mothers of these remarkable prize-winners unanimously praise the results of using Arden Certified Milk. When you know one milk is admittedly the best obtainable will you give your child any other?

Arden Baby Certified Milk

For 21 years Arden Dairy has been governed by the rules and regulations of the Medical Milk Commission, which specify that "Certified Milk shall contain an average of 4% butter fat with a minimum of 3.5% butter fat."

Arden Baby Certified Milk is produced from Holstein Cows. For infants this is a perfect milk, which, according to Dr. Thos. Morgan Rotch of Harvard University, approaches more nearly natural mother's milk than that from any other breed of cow.

Arden Certified Milk is always uniform in quality, flavor and purity.

There is a
particular
kind of
Arden
Certified
Milk for
every age!

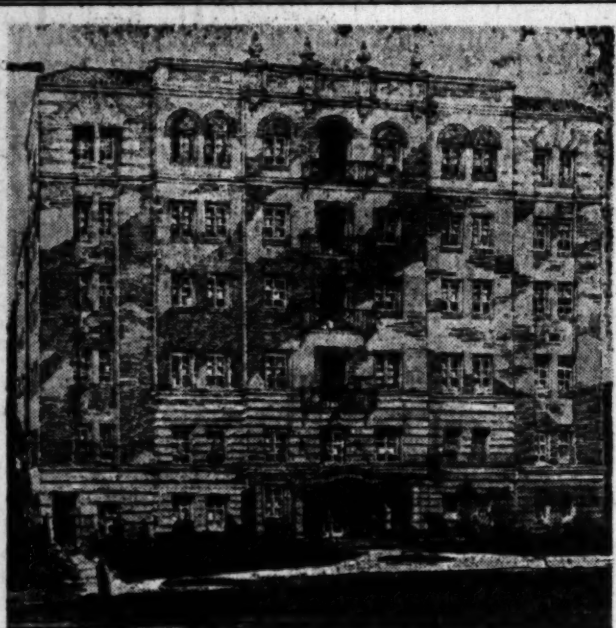

Arden Extra-Rich Certified Milk

An Extra-Rich milk of highest quality and positive purity. It offers the rich creaminess and delicious flavor found only in golden European Milk. Its luscious cream is especially good for table use. Its fine full flavor is a welcome surprise, even among those accustomed to rich Milk.

Too rich for infant feeding, it is valued especially for convalescents, those trying to add to their weight and strength, and in families where the best milk obtainable is demanded.

FOR YOUR JANUARY FUNDS

—a care-free investment

Do you seek an investment that you can put away with an absolutely free mind?

Do you seek an investment that pays the highest returns consistent with real safety?

Do you seek an investment that is stable and non-fluctuating?

Do you seek an investment that brings you your interest promptly on due dates, directly by mail, thus saving you the trouble of clipping coupons?

Do you seek an investment that is issued in convenient denominations, thereby enabling you to keep your funds closely invested at all times?

Do you seek an investment which, in addition to its own inherent safety, is guaranteed as to both principal and interest by a State-supervised institution with resources of \$50,000,000?

Consider, then, the Guaranteed First Mortgage Certificates originated and issued under the Mortgage Insurance Act of California by the Mortgage Guarantee Company, representing undivided ownership interests in a group of conservative, diversified first mortgages on improved real estate whose State-approved appraisal values are at least DOUBLE the aggregate face value of the said mortgages and of the Certificates issued against them.

These Certificates bear interest at the rate of 6%, are free from State, County, and Municipal taxes in California, are issued in denominations of \$100 and multiples thereof, for any maturity from two to five years, are guaranteed as to both principal and interest by the Mortgage Guarantee Company, and are legal investment for National, State and Savings Banks. They are purchased largely by banks, insurance companies, trust estates, and private investors whose requirements are the most exacting in the entire field of investment.

A descriptive booklet will be gladly mailed upon request. Write or telephone TRinity 0831.

REAL ESTATE LOANS

Funds in practically unlimited amounts are at all times available through this company for first-lien loans on private residences, courts, flats, apartments, and business properties. Either short-term loans or long-term amortized loans on attractive terms. Conferences are invited.

PRICES DECLINE ON STOCK MARKET

Sharp Break Marks First Day of Trading in Year

Many 1 to 9 Point Losses Reported at Closing Hour

Series of Unfavorable Trade Conditions Cause Drop

NEW YORK, Jan. 3. (P)—A break in prices ushered in the new year on the New York Stock Exchange. The reaction, which came from 1 to nearly 9 points in many issues, followed an opening play of moderate strength.

The many causes assigned for the selling, which was extensive, included the fact that the market was overvalued, the disappointing statements of the disintegrating steel industry, the disappointing statements of the disintegrating steel industry, the disappointing statements of the disintegrating steel industry.

True as most predictions, the market showed a marked tendency. Call loans were at 10 per cent, as against 8 last year, and held steady at that figure day, although outside loans were reported as low as 4 1/2 per cent.

High-priced industrial and utility issues were the hardest hit. Steel issues lost from 1 to 9 points, and other issues lost from 1 to 9 points.

Weakness of American Bank, which showed an extreme loss of 4 points at 120, and the loss of 4 points at 120, and the loss of 4 points at 120.

(Continued on Page 20, Column 1)

Location

is, for many obvious reasons, of prime importance in valuing business property. The 10-story American Bank Building at California and Montgomery Streets—the heart of San Francisco's financial district—is leased for 25 years to The American Bank.

The lease of this building and a half hundred other bank properties, (all well located in California cities) by The American Bank or the Mercantile Trust Co. for 25 years is at a rate sufficient to—

meet all operating expenses and taxes.

pay interest on First Mortgage 5% bonds and retire half of total amount by 1950.

pay 6% dividend and in addition retire one-half of present outstanding 6% Cumulative Preferred Stock.

The highly conservative and unusual features of this stock warrant our strong recommendation.

Application will be made to list this Preferred Stock on the San Francisco Stock and Bond Exchange.

Dividends exempt from Normal Federal Income Tax and exempt from California Personal Property Taxes.

METAL MARKET QUIET ENDURES

Price Situation Shows Little Change of Moment

Copper Moving in Fair Volume and Output Gaining

Lead Steady; Business in Zinc Well Under Average

BY CHARLES F. WILLIS

Quietness continues to prevail in all the metal markets with no changes in prices of any consequence. The quietness has caused no change in the sentiment as to prospective good business from industrial activity, although no material increases in prices are expected in the near future.

While copper sales are maintaining fair volume, they look small, as compared with the record-breaking period the first part of December. While primary production of copper was large for the month of November, the announcement of this and the increased surplus has not disturbed the market.

The failure of copper to increase in price with extraordinary heavy demands has made the consumers feel that there is no necessity to stock up in anticipation of any price increase, and the increasing production of copper is a further indication of the same.

The world's copper production totaled 133,400 tons in November, as against 141,800 in October and 136,500 tons in September. The increase is accounted for by about 6,000 tons from the United States, 300 tons from Belgium Congo. The daily rate of production during November was 4947 tons, by far the highest of any month since the war and a great increase over the 4222-ton daily rate of 1925 and the 3988-ton daily rate of 1924.

LEAD STEADY
The lead market is steady with sales in about normal volume and not much price competition. There is plenty of lead available, as production has been increasing with a corresponding increase in demand. Producers are inclined to hold the surplus rather than let it go at reduced prices.

The last three years have seen a sharp reduction in price during the early part of the year, but this price decline has since been reversed. The fact that 1927 will not see the same decline. Lead prices have been at the same time during 1924 and 1925.

The total lead production fell off in November to 123,150 tons, as against 127,628 tons during October. The bulk of the decrease came from Mexico, where 17,451 tons were produced, as against 20,610 tons during October. The low silver price and lower lead price is serious affecting the operations of Mexican mines, and it is expected that there will be more shut down soon.

The zinc business is well below normal. The usual holiday curtailment in the Midwestern field will greatly lessen the December production and possibly strengthen the weak zinc market.

ZINC TRADE OFF
The zinc business is good in general. Our sheet zinc production has increased 17 per cent over 1926 and was going strong until the automobile manufacturers started to curtail production. The zinc exports will show an increase of 50 per cent this year over last, despite the fact that much Australian zinc has found its way to Europe during this last year. The zinc surplus shows only about ten days' supply of slab zinc on hand on a market absorbing 82,000 tons monthly.

The progress of zinc goes hand in hand with copper to a considerable extent, as about 30 per cent of the slab-zinc production goes into alloys, principally brass, and as the brass industry grows, so does zinc.

The decline in silver is blamed by some foreign economists to a skillful manipulation by the gold dealers in securing the redemption of the Royal Commission on Indian Currency to have India go on a gold basis. It is argued that this will really make very little difference in the silver situation, even if the recommendation is accepted, rather than a gold standard, and there is little likelihood that India would get rid of her silver reserves.

It is felt that the slump over a misunderstanding situation has been responsible for bringing the price of silver down and that, when the situation is understood, the price will strengthen. There is much appearing in the press discounting the probable effect the change in India and this, of course, may be just as much the result of silver propagandists as was the contrary situation.

THE INVESTOR

Noted Authority Forecasts Volume of European Loans Expected in 1927.

BY RALPH HENDERSON

NEW YORK, Jan. 3. (Exclusive)—Probably no development in 1926 caused so much comment in investment circles as the marked change in sentiment in favor of foreign securities. Not since the exportation of American capital began have investors here been so favorably disposed toward the purchase of securities originating in outside countries as during the year that ends today.

It would therefore seem fitting to forecast as nearly as possible what may be expected in 1927 in the way of foreign bond offerings, especially those of European origin. Dr. Max Winkler, vice-president of Moody's Investors' Service and a recognized authority on foreign securities, has consented to make such a forecast. He says:

"On the whole, Europe is not expected to absorb so much American capital during 1927 as in previous years.

"Germany, a heavy borrower until recently, is likely to curtail new foreign credits. The situation in the home market has improved sufficiently to enable the sale of new securities internally.

"In view of the increasing amount Germany will be called upon to pay on account of reparations, it is perhaps to the advantage of the country to confine the larger part of borrowing to the home market. There is likely to be some new German financing in behalf of the larger municipalities and such corporations as do an international business.

"France may be an important borrower in 1927. This, of course, presupposes ratification (without modification) of the Mellon-Berenger debt-funding agreement.

"Belgian financial authorities maintain that foreign financing will be resorted to as little as possible because of the 1925 and the 1926-27 daily rate of 1924.

LEAD STEADY
The lead market is steady with sales in about normal volume and not much price competition. There is plenty of lead available, as production has been increasing with a corresponding increase in demand. Producers are inclined to hold the surplus rather than let it go at reduced prices.

The last three years have seen a sharp reduction in price during the early part of the year, but this price decline has since been reversed. The fact that 1927 will not see the same decline. Lead prices have been at the same time during 1924 and 1925.

The total lead production fell off in November to 123,150 tons, as against 127,628 tons during October. The bulk of the decrease came from Mexico, where 17,451 tons were produced, as against 20,610 tons during October. The low silver price and lower lead price is serious affecting the operations of Mexican mines, and it is expected that there will be more shut down soon.

The zinc business is well below normal. The usual holiday curtailment in the Midwestern field will greatly lessen the December production and possibly strengthen the weak zinc market.

ZINC TRADE OFF
The zinc business is good in general. Our sheet zinc production has increased 17 per cent over 1926 and was going strong until the automobile manufacturers started to curtail production. News of Spring Street

The Bank of Italy announced yesterday the removal of its bond department to new quarters on the third floor of the Bank of Italy Building. The new offices occupy Suite 309 to 321 and may be reached by either the building elevator or the private elevator from the main banking room. Officials of the bank report that the growth of the bond department has exceeded the expectations of a short time ago. The old offices have been insufficient to accommodate the growing business, and the move will allow the installation of increased facilities.

"True Tested" Bonds
Designated as "True Tested" collateral trust bonds, Metzler & Co. are offering a series of short-term bonds, maturing in one year from date of purchase and yielding 6 1/2 per cent. The company states that the bonds are the direct obligation of the United Mortgage and Loan Corporation, and that they are fully secured by 120 per cent carefully selected first mortgages or first trust deeds on Los Angeles residence and business property, appraised at double the amount of the mortgages deposited.

Blair Wins
By defeating Cajigas & Earle, Inc. in the final, the tennis team of Blair & Co., Inc. is again the victor in the Southern California Investment Dealers' Association's annual tennis matches, played by teams from the various local bond houses, and will keep for the second year in succession the James E. Page perpetual challenge trophy. The house represented in the tennis matches this year were Stevens, Page & Sterling, William B. Blair & Company, Hunter, Dulin & Co., E. H. Rollins & Sons, Rlyth, Witter & Co., First Securities Company, Carstens & Earle, Inc., and Blair & Co., Inc.

SALES SET RECORD
NEW YORK, Jan. 3. (P)—December sales of Montgomery, Ward & Co. reached \$23,103,979, the largest monthly total in the company's history. The year's total of \$199,262,965 was a gain of 8.3 per cent over 1925, and the fifth consecutive annual increase.

BANCITALY FEATURES STOCK RISE

Advances 5 Points Along With Bank of Italy, Both Recording New Highs

Bancitaly Corporation and Bank of Italy featured a strong market on the Los Angeles Stock Exchange yesterday. Bancitaly advanced sharply to a new record high for all time at 90 1/4 and closed at 90 for a net gain of 5 points, while Bank of Italy opened 30 points higher at 539 and closed 35 points higher at 585, also a new record high for all time.

The turnover in Bancitaly was the largest in many months. Southern California Edison common was also strong and advanced to 32 and closed fractionally net higher at 31 7/8 on a large volume. Los Angeles Investment added 3 points to 205 1/2.

Oil stocks were irregular. Standard Oil of California closed firm at 88 1/4. Union Oil of California closed 7-8 of a point off at 85 1/8, after touching 84 3/4. Associates lost 3/4 of a point to 84 3/4. Richfield common sold off to 24 1/2, and closed at 24 5/8, a net loss of 3/8 of a point. California Petroleum held at 31 and Bull at 22. Julian preferred rallied to 14, but closed steady at 13 7/8. The common added a fraction to 2 3/4.

There was little activity in the mines. Western Apex was off 1-2 of a point to 69 1/2. North Star added that amount to 7 1/4, and Boundary Cone was firm at 7. New Gibraltar moved up another point to 22. Katsine Extension sold at 13 1/2.

NEW COURSE TO OPEN

Retail Buying to be Subject of Twelve Lectures

Headed by the only woman faculty member of the college of commerce of the University of Southern California, Dr. F. May Morse, associate professor of merchandising, a Tuesday evening lecture course in the elements of retail buying is announced to open at metropolitan college this evening at 7 p.m., according to Dr. T. W. MacQuarrie, director of the evening college.

The course is planned to be of special interest to buyers, assistant buyers, and those training for such work, and will run for twelve lectures. Miss Morse has had practical experience in New York, Detroit and Seattle, and also co-ordinated the work of apprentices and conducted courses for assistant buyers at the University of Washington, having come from Seattle to Los Angeles and the local university this year.

THE INVESTOR

Noted Authority Forecasts Volume of European Loans Expected in 1927.

BY RALPH HENDERSON

NEW YORK, Jan. 3. (Exclusive)—Probably no development in 1926 caused so much comment in investment circles as the marked change in sentiment in favor of foreign securities. "True Tested" Bonds
Designated as "True Tested" collateral trust bonds, Metzler & Co. are offering a series of short-term bonds, maturing in one year from date of purchase and yielding 6 1/2 per cent. The company states that the bonds are the direct obligation of the United Mortgage and Loan Corporation, and that they are fully secured by 120 per cent carefully selected first mortgages or first trust deeds on Los Angeles residence and business property, appraised at double the amount of the mortgages deposited.

Blair Wins
By defeating Cajigas & Earle, Inc. in the final, the tennis team of Blair & Co., Inc. is again the victor in the Southern California Investment Dealers' Association's annual tennis matches, played by teams from the various local bond houses, and will keep for the second year in succession the James E. Page perpetual challenge trophy. The house represented in the tennis matches this year were Stevens, Page & Sterling, William B. Blair & Company, Hunter, Dulin & Co., E. H. Rollins & Sons, Rlyth, Witter & Co., First Securities Company, Carstens & Earle, Inc., and Blair & Co., Inc.

SALES SET RECORD
NEW YORK, Jan. 3. (P)—December sales of Montgomery, Ward & Co. reached \$23,103,979, the largest monthly total in the company's history. The year's total of \$199,262,965 was a gain of 8.3 per cent over 1925, and the fifth consecutive annual increase.

The Best Investment —for your January Funds

EVERY investor is interested in selecting the best possible investment for January funds... from the standpoint of security, income, and adaptability to his present holdings.

Our list of January offerings will prove of real assistance to you in making your selection. On it will be found bonds and stocks representative of the most attractive investment opportunities available in every important investment field.

A copy will be mailed you gladly... without obligation on your part. Just send us your name and address on the coupon below, or telephone TRinity 5101.

NATIONAL PUBLIC SERVICE SYSTEM

\$1,900,000

Florida West Coast Ice Company

First Mortgage Sinking Fund 20-Year 6% Gold Bonds, Series A

Dated December 1, 1926. Due December 1, 1946. Redeemable at any time as a whole or in part on 30 days' notice at 103 and accrued interest, reducing 1/4 of 1% on the first day of December, 1935, and of each December thereafter up to maturity. Semi-annual interest payable December 1st and June 1st. \$1000 and \$500 coupon bonds with privilege of registration, as to principal. Guaranty Trust Company of New York and The Central National Bank and Trust Company of St. Petersburg, Florida, Trustees.

The Florida West Coast Ice Company, incorporated under the laws of Florida, has acquired the ice properties and businesses of Pinellas Ice & Cold Storage Company and Citizens Ice & Cold Storage Company and furnishes an ice service to a permanent population of 100,000, which during the winter months reaches 250,000. The territory served includes the cities of St. Petersburg, Tarpon Springs, Clearwater and various other municipalities on the Pinellas Peninsula. The Company owns 8 new ice plants, having a daily capacity of 515 tons, designed according to the latest practice, and equipped with the most modern type of ice-making machinery.

In addition to its manufacturing plants the Company maintains a small amount of cold storage space for the convenience of its patrons. In the larger municipalities it maintains a motor truck delivery system and also supplies local dealers from its own platforms. During the year ended July 31, 1926, 90,000 tons of ice were sold and it is estimated that for the year 1927 the Company's ice sales will be over 120,000 tons. The earnings for the 12 months ended October 31, 1926, reflect in but small degree the Company's present productive capacity, as over 50% of the Company's present capacity was not in operation prior to January 1, 1926.

Earnings: As officially reported for the 12 months ended October 31, 1926:

Gross Earnings	\$638,432
Operating Expenses	324,704
Net Earnings	\$313,728
Annual interest requirements on these bonds	\$114,000

Balance available for Depreciation, Federal Taxes and Dividends - \$199,728

Net earnings over 2.75 times annual interest requirements on these bonds

The above earnings do not fully reflect operations of plants installed since January 1, 1926, nor the economies which will result from consolidation and from supervision of present ownership. It is conservatively estimated that the net earnings available for the interest requirements of these bonds for the year ending December 31, 1927, will be over \$450,000.

Security: These bonds, the only funded debt of the Company, are secured, in the opinion of counsel, by a direct first mortgage on plants and properties owned by the Company estimated by independent engineers to have a depreciated value of over \$3,000,000. The additional bonds may be issued as provided in the Trust Indenture to reimburse the Company for permanent improvements, extensions, additions, plant or property and (under special restrictions) for fixtures to real property leased to the Company.

Sinking Fund: The Trust Indenture provides for equal semi-annual payments which are to be applied, first to the payment of interest on outstanding bonds of Series A and the balance to the retirement of bonds of Series A by purchase or by call. It is estimated that these payments will retire at least 40% of bonds of Series A before maturity.

Management: The Company is controlled through 100% stock ownership by the National Public Service Corporation which also controls Pinellas County Power Company and the Florida Power Corporation, which latter companies do the electric light and power business in the same territory served by this company with ice. The Company is under the supervision and management of the General Engineering & Management Corporation which has successfully demonstrated its ability in developing business in the territories served by the companies under its management.

Price 97 and accrued interest to yield 6.25%

We offer these bonds for delivery when, as and if issued and approved by counsel and accepted by us. It is expected that delivery of Definitive Bonds will be made on or about January 14, 1927.

To you, the conservative people of Southern California, who appreciate the strength and stability reflected in the above Statement of Condition—a cordial invitation is extended to open an account. An All-Inclusive Banking Service is at your command.

THE CITIZENS NATIONAL COMPANY, under the same ownership and management as the Citizens National Bank and the Citizens Trust and Savings Bank, handles High-Grade Government, Municipal, and Corporation Bonds.

Thousands will study this interesting advertisement but only those who read the message fully and act accordingly can profit by it.

TWO YEARS AGO a group of Los Angeles men bound themselves together forming the California & Eastern S. S. Co., to purchase a large, fast freight steamer to operate in the inter-coastal trade.

They believed that Los Angeles was ready for such a company, owned and operated locally, whereby the shippers could deal directly with the owners; a company which would spend its earnings right here with Los Angeles merchants, thus adding to the general prosperity; a company which would give a greater measure of return to the citizens for their investment in the construction of their harbor.

The time was particularly opportune, because ships could be procured at a fraction of their replacement value.

The business has proven profitable without even taking into account the steadily increasing value of ships we own.

After two years of operation, during which time we have purchased two additional ships, the business offered is continually increasing, thus proving that honest, efficient and courteous management of an enterprise which is a necessity brings its own reward.

The last 30 trips, cargos aggregating 181,812 tons, have been carried averaging 6,060 tons per trip.

Several hundred of the most prominent Companies in the United States, including over 500 Los Angeles firms, have already favored us with their patronage, and in addition the U. S. Government has recently awarded this Company the contract to transport locomotives for the Alaskan Railroad from Philadelphia to Seattle.

More ships are needed and a few more are available at low cost.

You can now participate in this company's property on the original basis. Our stockholders received last year 8% dividends on their Preferred Stock and \$5.00 per share on their Common Stock, which now costs a total of \$105.00 for one share of Preferred and one share of Common. Terms if desired.

If you are interested in what we know is a profitable, safe and growing investment, we would be glad to discuss it with you. Use one of the coupons below.

Fingerprint Clew Found in Downtown Safe Crackings

BANDITS OBTAIN \$12,000 IN CASH

Playhouse and Jail Cafe Raided by Pair

Cafeteria in Seventh Street Also Held Up

Hunt on for Two Boulevard Highwaymen

Tell-tale fingerprints marring the lacquer of two safes are expected today to reveal the identity of yeggs who committed two downtown burglaries early yesterday morning in escaped with more than \$12,000 in cash. Detectives also are seeking two bandits who collected \$200 in a daylight hold-up of a West Seventh-street cafeteria. Both safe-cracking jobs apparently were the work of experienced crooks, and it is believed the fingerprints will tally with records in the police identification bureau.

Shortly before daylight two men overpowered C. Baker, night watchman at the Playhouse, 940 South Figueroa street, imprisoned him in the basement, blew open the safe and fled with \$10,000 and a diamond-studded platinum watch valued at \$1500 by the owner, O. Macdon, lessee of the theater. Entrance to the wire cage which held the safe was gained by removing the lock with tools they are said to have obtained from the workshop of the Friday Morning Club. According to Baker's report to Detective Lieutenants Hamilton and Stevenson, he heard three explosions. When he was assured that the bandits were gone and that his life was no longer endangered, Baker laboriously freed himself and managed to robble to a telephone, notifying J. R. Neal, an employee of the Friday Morning Club, who lives with his family on the second floor of the building.

The plunder comprised also the week-end receipts of the Orange Grove Theater, it was reported. Later investigation was made by Detective Lieutenants Pruitt and Savage.

DIVIDE SPOILS

Another safe job was discovered yesterday morning by H. M. Denny, proprietor of the Jail Cafe at 4212 Sunset Boulevard. The bandits had forced the front door and then ripped from its hinges the heavy iron door of the safe. According to the report of Detective Lieutenants Savage and Pruitt, there was every indication that two men perpetrated the crime and sat across from each other at a table in making their division of approximately \$2000.

A solitary 25-cent piece was left on the table; it had evidently defied the bandits' search for loot.

The third sort of the criminal element was the daylight hold-up of the Leighton Cafeteria at 323 West Seventh street, shortly before 7 a.m. At the point of a gun, Samuel Hamill, proprietor, was forced to open the safe, turning over \$100 in cash.

Hamill was making his round of inspection and had emerged from the kitchen when two bandits stepped out from a small alcove near the door. One bandit took nine employees in tow, while another directed his attention to the proprietor.

With three cooks, three dishwashers

DRY MONDAY FOR SEVEN SCORE

Unusually Large Daily Drunk Court Draws Usual Jolt of 'Twenty or'

It was a dry Monday morning for some 140 holiday celebrants appeared yesterday before Municipal Judge Richardson in his daily City Jail "drunk" court.

Judge Richardson handled the entire calendar in short order, assessing the usual \$20 or twenty days on those who admittedly had drunk not wisely but too well.

and three waitresses held at bay by one armed bandit, Hamill was ordered to open the safe. As he obeyed, he hesitated a moment—an error that cost him a resounding smack on the head from the butt of the other bandit's pistol. Finally, Hamill got the safe open. Unnoticed, he deftly drew a small silk American flag over a bag of money containing \$600, and tendered another, containing the smaller amount to the bandit.

Meanwhile, the other bandit was taking no chances. Mattilda Roebuck, waitress, had stood patiently with her hands high in the air. She lowered one hand a bit to adjust the shoulder strap of her apron. Her reward was a vicious blow on the hand from the gunman, causing a deep laceration.

Their purpose achieved, the bandit pair, both masked, walked briskly from the place. Detective Lieutenants Hamilton and Stevenson were assigned to an investigation of the hold-up. Both bandits were described as unusually youthful; one was jauntily dressed—the other wore shabby clothes, according to reports. Burglars who had entered the Saturday store at 7200 Sunset Boulevard were surprised in the midst of their ransacking early yesterday morning when G. J. Purdy, deliveryman for a bread company, appeared on the scene with the day's supply of bakery goods. The bandits fled. According to H. Hines, proprietor of the store, nothing was taken. Detective Lieutenants Woodworth and Cork of Hollywood division are investigating.

WIDE SEARCH ON FOR

A search covering all large cities of Southern California was started last night by deputy sheriffs under Capt. James F. Townsend for the "straight-eight" bandits who held up Jack Kearns, of fictitious fame, in Sawtelle Sunday night, taking his large automobile.

Sawtelle police traced the car, abandoned by the highwaymen at the time they held up Kearns, to the burglars who operated for ten days along the Foothill Boulevard. The car was seized by buckshot in the back, believed to have been fired by G. W. Stokes of Santa Fe Springs.

Stokes, returning home at a late hour a week ago, met two bandits, who held him up and fled. He rushed into the house, obtained a shotgun and fired at the bandits. One of the bandits who held him up was a covering over one eye.

bandit took nine employees in tow, while another directed his attention to the proprietor.

ARTIST'S WIFE WINS DIVORCE

Ferdinand Pinney Earle Fails to Contest Action

Painter, Also Film Director, Accused of Cruelty

Several Beatings Asserted in Plaintiff's Charges

Ferdinand Pinney Earle, artist, motion picture director and clubman, whose marital affairs have filled the columns of newspaper all over the nation, yesterday won his wife when Charlotte Kristine Earle appeared before Judge Crawford and obtained a divorce on grounds of cruel and inhuman treatment.

Earle's divorce case had been on the calendar, along with litigation of little importance and when the case was called for trial the courtroom was practically destitute of spectators. Earle did not appear in court to contest the case, although he had filed an answer and was represented by counsel.

The Earles, according to the wife's complaint, were married in Oceanside, N. J., October 7, 1915, and separated in January 26, 1926. Two sons were born of the marriage, the elder of whom died recently. At the conclusion of the hearing, Judge Crawford awarded Mrs. Earle the custody of the living son.

BEATINGS CHARGED
In her complaint Mrs. Earle charged her husband with administering several beatings, the first of which, she said, occurred a year after their marriage.

On the first occasion, she said, he was in a fit of rage, stabbed her with a pair of scissors and called her "vile and wicked." Other allegations followed, adding that Earle once had her with a hanging hammer.

When their elder son died, Mrs. Earle stated in her complaint, she told her husband she wanted to leave him, but she asserted he threatened to kill her if she did so. Mrs. Earle said she resigned herself to the action, as she had nowhere to go and her father had disowned her when she married Earle.

TEMPER HAINED
Following each beating, Earle was said to have given his wife, he was said, he became repentant and on many occasions of his asserted acquiescence to her to forgive him, but his asserted conduct on his part, Earle stated she was a pianist who has marriage to the artist and painter, but that she had been away from her profession for such a long time that she could no longer hope to earn a livelihood at it.

Temporary settlement, said to include a house valued at many thousands of dollars, was effected out of court and it was stated provision had been made for the support of Mrs. Earle and her son.

CRAIL WILL SEEK ACTION ON DAM BILL
Congressman-Elect Asserts Delay Now Would Peril Act at Next Session

At the Boulder Canyon dam bill, which was spoken of as the Swing-Swift bill, its passage in the Senate adjourns, its passage in the House will be doubtful. Congressman-elect Crail said yesterday while returning to his home last night for the winter, accompanied by Mrs. Crail, that the chances of the bill, he said:

"The measure has the best chance of passing of being enacted into law, and it is not passed before Congress adjourns. It is going to have hard work in the future, for the next Congress undoubtedly will be hostile to it. With the courtesy of the Senate, it will be in a better position to pass than the average bill. That's the reason, for the bill is getting by way of the Panama Canal, and I have canceled those who will leave by the faster direct train service. I will continue to have the veterans' pension legislation. Known as the Crail bill, enacted, which would have been passed by the House."

Le Clerc Will Plead Today to Murder Charge
Testifies Breaker Was Him from Path of Plane Said to Have Killed Glick

Glen Snyder, 15 years of age, who yesterday at the trial of Charles B. Crossan, aviator, in Judge B. Lucas's court, said a break in the plane saved him from injury when he was killed at Venice by Crossan. The breaker, he said, was washed him out of the path of the plane.

Crossan is charged with the slaying of Little Norman, 14, on the beach at Venice. W. Byron Murphy, a witness, had seen Crossan flying his plane in a manner on other occasions between electric light poles. Captain of Detective Light Police, who was on duty at the time of Crossan's arrest, said he saw Crossan at the time of the slaying. Officers charged, and if Schwartz reported the slaying, he might be placed in jail.

A hundred of these new dresses—well made. Of an excellence rare indeed in the dress of so low a price. In sizes 14 to 42.

Lower Price Dress Section, Bullock's Third Floor, Hill Street Bldg.

Brown-Adams Clash at Olympic Tonight in Battle for Coast Lightweight Leadership

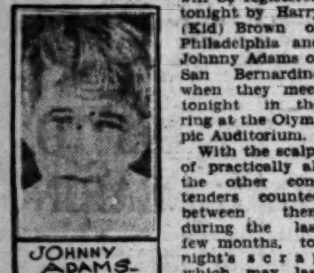

PHILADELPHIAN RISES RAPIDLY

Harry and Johnny Clean Up on Other Aspirants

Nod Over Gate City Boxer May Mean Mandell Go

Harms Clashes With Atkinson in Classy Semifinal

Valiant efforts to knock each other out in the ladder leading to the Pacific Coast lightweight championship will be registered tonight by Harry (Kid) Brown of Philadelphia and Johnny Adams of San Bernardino.

JOHNNY ADAMS

expected to provide the Coast 137-pound bout. An additional prize to be claimed by the winner is a crack at Sammy Mandell, unofficial lightweight champion. Joe Levy, the quiet-working Olympic matchmaker, has begun dickering with Mandell and believes he can get him into the ring with the winner of the Brown-Adams go for a decision fight.

Brown has more than made good since his arrival from Philadelphia a month ago. He won without dissenting voices over Baby Joe Gans and was a steady Young Harry with a steady beating when he took the bout on a fad in the sixth round. Adams, previously the more famous of the two, has been a steady winner as a headliner by winning from Ace Hudkins and Tommy O'Brien, previously the more famous of the two, in local lightweight circles.

Joe Levy says that the fans look with particular attention at the semi-final in which Billy Harms, a heavy fighter, will be pitted against a contender who has been a steady winner. Harms stopped Ashley Smith in two rounds two weeks ago and hopes to score another knockout tonight. If he wins decisively, he believes he will be in line for a bout with Eric Cullen in the first fight on the program.

Another six-round bout tonight will bring together Jimmy Mackley and Don Levy, two contenders who used to be in Uncle Sam's navy. Two, Lewin, one of "Kid" Brown's sparring partners, will box Manuel Freyre at 140 pounds in a four-rounder, while Willie Brown and Dick De Moog, 138-pounders, have been matched for four rounds in the first fight on the program.

ACCUSED MEN FACE RISBERG

(Continued from First Page)

the first to notify the commissioner they would be there.

Landis's telegram to the players said:

"The commissioner will conduct a hearing at his office, 123 South Michigan, Chicago, at 10 o'clock Wednesday morning, the 4th inst., respecting charges of irregularity in connection with the Detroit-Chicago series, September, 1917 and 1918.

"Please be here at time mentioned. Your expenses will be guaranteed. Mine answer collect."

Expense for the thirty-eight players, in financing their trip to Chicago, it was estimated last night, would cost the commissioner's bankroll to the extent of about \$20,000. As some of the men involved will need to travel more than 2000 miles, Landis promised Chicago expenses and "fair compensation" for his trip to Chicago from his dairy farm near Rochester, Minn.

When they discussed the compensation at Risberg's hearing Saturday night, Risberg indicated he thought his story would be worth a considerable sum to baseball, but he was willing to leave the amount to Landis.

Risberg's story told to Landis under oath, was that each of the Sox contributed \$45 to present to the Detroit players for "laughing" four games to the Sox.

Many of the players Risberg named admitted sharing in the pool, both Sox and Tigers, but denied Risberg's charge that it was to buy four games from Detroit. They contended it was a present to Detroit for killing off the Boston Red Sox in the September pennant race, by beating them three straight, September 19 and 20, 1917.

George (Buck) Weaver and "Chick" Gandil, who with Risberg, were indicted from baseball because of the 1919 Chicago-Cincinnati world's series disclosures, were among those who substantiated Risberg.

James Silent on Ball Quiz

(Continued from First Page)

the Boston Red Sox, near the close of the close 1917 pennant race, "it was used to be the custom in those days," said Meek, "for players to reward managers for any team for defeating their nearest rivals in tight pennant races. Players on teams in the pennant race often would say to men on teams out of the running, 'If you knock off such-and-such a team I'll be fifty dollars or a new suit of clothes. If it for you.' I'd like to have all the money that's been given to players from other teams for knocking out a club in the pennant running."

ONE OF A BIG FAMILY

Harry (Kid) Brown is not just another Brown, but a first-class lightweight from Philadelphia who has been invading the local arena to his own advantage during the past month. Brown is scheduled to appear against Johnny Adams in the ten-round main event at the Olympic auditorium tonight to decide which has the better claim on the Pacific Coast lightweight championship, if any.

RABBIT PUNCHES

THE appointment of a new member to the California Boxing Commission to fill the expired term of Bill Hanlon comes as no surprise to those familiar with the situation. Hanlon, a hotel man of Sacramento, was sick and tired of the job. It brought him no compensation but plenty of grief. It even hurt the patronage of his sleeping emporium. He did not want to reappoint himself.

Persons who disagreed with his decisions on matters relative to the conduct of boxing were mean enough to pay money for the privilege of sleeping somewhere else while in Sacramento. We know a thing about Coach Warner, who has been eased into Hanlon's job as one of the last official acts of Gov. Richardson, but the fact that he is a San Francisco man will save the minds of the Bay City squarers.

Whether the Governor-elect will let the Boxing Commission alone as it stands or have a say in the matter is a matter that is not yet decided. It is a matter that is not yet decided. It is a matter that is not yet decided.

Ever since the "putch" board baseball investigation broke loose we have been flooded with letters containing nice brickbats for the eminent grandstander, Jim Kenesaw Mountain Landis, the baseball boob-bah who had his salary raised \$10,000 per year and thought he ought to start something to show everybody he was worth it. One letter from "Ed Ames" of the Los Angeles Times, an example of what a lot of ball fans think of Landis, was particularly pointed.

"Permit me to thank you heartily, although somewhat tardily, for the letter which you recently handed the redoubtable Judge Landis in your column."

WADE PRAISES STANFORD ENDS

Says Card Wingmen Best He Ever Saw on One Team

Shipley's End-Around Play Impresses Coach

Alabama Mentor Thanks Coast for Reception

BY WALLACE WADE

Head Football Coach Alabama Team

EN ROUTE TO BIRMINGHAM

WITH ALABAMA SPECIAL, JAN. 4—

Stanford's offense was particularly effective because the interference was good and the backs ran hard and fast, the forward passes were well placed and executed.

The most deceptive play was the one on which Walker made his touch-down. It was a pass slightly from the line, a pass slightly from the line, a pass slightly from the line.

Stanford's defense was imprugable for most of the game, particularly on account of the outstanding work of Shipley and Walker. I agree most heartily with Coach Warner that I have never seen as good a pair of ends on one team. It is hard to say which was better, Shipley or Walker, but both were excellent.

AN APPLE CONTROVERSY

School reads Less Legion
She Had No Part in Talk
Against Military Training

A disclaimer of having anything to do with Herbert Martin's recent speech against military training before school boards here is contained in a letter Mrs. Susan M. Dorsey, Superintendent of Los Angeles Schools, has sent to John D. Home, commander of the American Legion Interstate Council.

"I should regret exceedingly to have any of our speakers attack the Reserve Officers' Training Corps or the Citizens Military Training Camp at an institute assembly," Mrs. Dorsey wrote, "as I am one of those who strongly believe in virile training for young men."

To like the things that their parents like. It's this so-called good table that is responsible for this "run" of fat in the family. Granted, perhaps, that there may be some slight inherited tendency also, it's not strong enough so that you want to give it any thought (except as warning) for the same sort of regime that will reduce others will also reduce you.

Much women trace the beginning of their overweight to pregnancy and nursing and this is due to the over-eating that takes place at these times. From the idea that calories must add up two. (While this idea is right, it is not remembered that the second one, up to the first five months, is an extremely tiny little being which requires very little extra.

The mother to sustain it, and during the last four or five months only one pound more.

I am inclosing two clippings from our paper—one is yours; the other, another doctor's. One, you see, says an apple averages 677 calories in food value, and says it is advisable to take at least six a day. Your article, which also advises the eating of apples, says that one good-sized apple is only 160 calories. Now, I love apples, but I have to count my calories, and if the other doctor's statement is true I can't eat many of them—Mrs. E."

You didn't read the article you sent me very carefully, Mrs. E. It wasn't written by a doctor, but by some feature writer who didn't sign his name. He quoted from a doctor about the value of the apple—their was good advice—but they're giving his misinformation about the calories was not in quotes. It was mine.

little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a grey-haired person look twenty years younger. Does not clog the scalp, is not sticky or greasy and will not rub off.—(Advertisement.)

Announcement was made yesterday that a six-story structure, 100x160, would occupy the corner. However, the architect declared that there was a possibility of a twelve-story building being erected, and that definite construction plans were not yet completed.

Mrs. Strong and associates retain the corner on a ninety-nine-year lease. The consideration involved approximates \$2,800,000, it is said.

mittee, of which Councilman Allan Jacobson will start their official new year with a hard, legislative nut to crack, to-wit: Shall the honorable City Council do anything of anything, without as to prohibit the axle grease bathing suits which some of the women swimmers in William Wrigley Field race up Catalina Island promise to wear?

The Council yesterday received an indignant protest against the banning of suitless women swimmers. The protest included a plea that the city do something drastic and do it before the swimming season begins. The letter signed by E. M. Smithers, 7289 Avalon Boulevard, was sent to the Council's Public Welfare Com-

Councilmen Allan, Hughes and Jacobson will start their official new year with a hard, legislative nut to crack, to-wit: Shall the honorable City Council do anything of anything, without as to prohibit the axle grease bathing suits which some of the women swimmers in William Wrigley Field race up Catalina Island promise to wear?

The Council yesterday received an indignant protest against the banning of suitless women swimmers. The protest included a plea that the city do something drastic and do it before the swimming season begins. The letter signed by E. M. Smithers, 7289 Avalon Boulevard, was sent to the Council's Public Welfare Com-

and Hollywood Boulevard is soon to be improved. Architect Fred Dorn declared that he has been retained by Frank Strong and associates to design a structure for the site. Renovation is scheduled to begin on the 15th inst.

...the writer's own nonpro-
fiteous contribution.
Perhaps the doctor said the six ap-
ples would be 697 C. That's nearer
right, for one good-sized apple, 7 1/2
ounces, he said, 100 C., according
to the standard laboratory tables of
calories. So go to them! You want
to remember, if you're on a 1500 C.
day, and you take 600 C. in apples,
that your other 600 must contain at
least two glasses of skim milk or its
equivalent in cheese or milk dishes,
and some high-protein food, such as
meat, fish or eggs. But I haven't
space to continue with the founda-
tion diet in reducing in this article.
If you haven't our instructions giv-
ing more detailed advice, please send
for our booklet on the subject. (It
costs 10 cents in stamps and a self-
addressed stamped envelope.)

CASE FOUND
Police Seek Writer of
Letter Declaring Man in
Death Cell Innocent

Another arrest in the case of Rev. Philip A. Goodwin, sentenced to be hanged for the murder of Joseph Patterson in Santa Ana Canyon March 18, last, loomed yesterday as a letter purported to have been written by J. Mackelbride, a mystery witness, was being examined by Milton Carlson, handwriting expert.

The letter told a story of Patter-

Two Women in
Narrow Escapes
From Bullets

Narrow escapes from carelessly fired New Year's revolvers were reported to the Sheriff's office yesterday by two women.

A bullet crashing through a window shattered a brick hotel held in the hand of Mrs. Amelia Ferguson, 9414 Zenara street, according to her report to Sheriff Traeger.

Another bullet believed to have been fired by a New Year's Eve revolver pierced a wall and buried itself in the ceiling over the head of a daugh-

Light and heat into them, and milk and half a cup of sugar. Bring three and a half cups of water to a boil, add a rule of milk to a boil and the egg mixture; place in a double boiler and stir and till thick and smooth, as Cool, flavor with one and a spoonful of lemon extract and into a baked pie shell.

CRECK SOUP
Heat two tablespoons of butter in a large saucepan, add two carrots scraped and sliced, two onions sliced, and one chopped onion, one potato, one chopped turnip, two turnips, one cup of water, and one spoonful of powdered meat and cook until the vegetables are tender, all four cups of water, bring to level, add one spoonful of butter, press all through a clean saucepan, reheating.

Hollenbeck Ebell
Tomorrow afternoon Hollenbeck Ebell will enjoy a reciprocity program given by the West Ebell Club. This is in return for the California program which Hollenbeck Ebell presented before the sister club last year.
The chorus will meet at 10:30 a.m. and Mrs. J. A. Smith will conduct current events at 1:30 p.m.

Sculpture in Pasadena
The Pasadena Art Institute at Carmelita Gardens, Pasadena, announces an exhibition of the works of the noted sculptor, Roger Noble Burnham, from the end of 1918 until the end of 1921.
Among the works are examples of architectural sculpture, garden ornaments, portrait-busts, medallions and masks.
Burnham is especially happy in

son having been killed in an automobile accident near Camp Kearny, San Diego county, on March 14, last, and was in direct contradiction to the State's theory of the killing.
The rivalry was signed by a "J. Mackelbridge," and accused another person of complicity in the killing, declaring Mr. Goodwin innocent of the crime for which he has been sentenced to the gallows.
Examination of the chirography of the letter led the prosecution force to search for the writer on the theory he can shed important light on the murder mystery.
Mr. Carlson is making an effort to name the point at which the letter was mailed. Inasmuch as the post office cancellation on the envelope is not clear, the authorities are balked in their first move toward a search for the letter writer.

Why Not Try It?

One housewife plants her Christmas tree each year in a pot. She keeps the earth moist around the tree from shading it all the time if it is trimmed. The green crepe paper can be used around the ball to make it attractive.

In Arabia, where the men were women as slaves, wives are bought for their slapping and scold.

Japan, Russia, Germany are to speak on the impressions of the war especially in Universal Mary K. Crawford, secretary at Southern California chapter of arrangements, behind the Cur-green crepe paper can be used around the ball to make it attractive.

On the day of her disappearance Mrs. Sprague appeared at the home of the woman who had sworn to the complaint against her and attempted to persuade her to discontinue the charge of disturbing the peace. Failing to do this she left, saying that she would kill herself before she would stand trial. The same night her automobile was found abandoned in Santa Monica and police and deputy sheriffs kept a constant watch on the beach, believing that the woman had thrown herself into the ocean.

Safeblowers Reap Rich Haul in Early Morning Raid on Playhouse

Approximately \$10,000 in loot was obtained by safeblowers who bound the night watchman and wrecked the safe at the Playhouse, 940 South Figueroa street, early yesterday. Photo shows Detective-Lieutenants Pruitt and Savage examining demolished strong box. (Times photo.)

Enjoying Their Honeymoon Incognito, Prince Leopold and Princess Astrid were recently discovered by newspapermen at their Paris hotel. The royal honeymooners made frantic efforts to escape cameramen, but were caught at a side entrance entering a car as above. (P. & A. photo.)

Fugitives From Bolshevist Russia, Mrs. Anna Y. Ermi and her daughter, Asia Y. Ermi, arrived in San Francisco recently after a series of hardships and adventures. They are pictured above aboard the liner President Taft upon arrival. (P. & A. photo.)

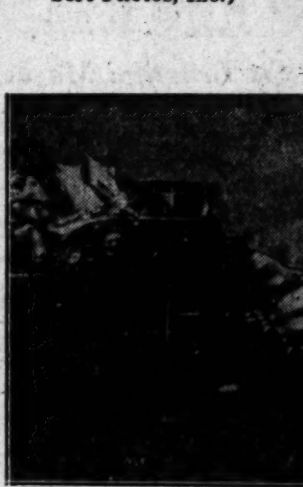

New Justice of Peace of Burbank Township, Frank H. Gray, former Deputy City Prosecutor, is shown above receiving a floral tribute at the hands of City Prosecutor Friedlander (left), a gift from the members of his staff. Mrs. Gray is the third figure. Burbank township boasts a population of 40,000. (Times photo.)

Planning Their Round-the-World Trip, Gov. Richardson and his son John are shown consulting the globe in the library of the executive mansion at Sacramento. The Governor and his family will leave on the trip some time this month. (P. & A. photo.)

A Real Diana is Lenore Hayes, pictured above with a sure-enough lynx which her trusty rifle brought down near Lake Placid, N. Y. (Herbert Photos, Inc.)

Challenge to America's Champion speed typewriter has been issued by Marion Mitchell (above), an English girl who defeated all comers at a recent contest in Paris. M. Tangora, United States champion, will accept the challenge. (P. & A. photo.)

OUR HISTORY IN PICTURES

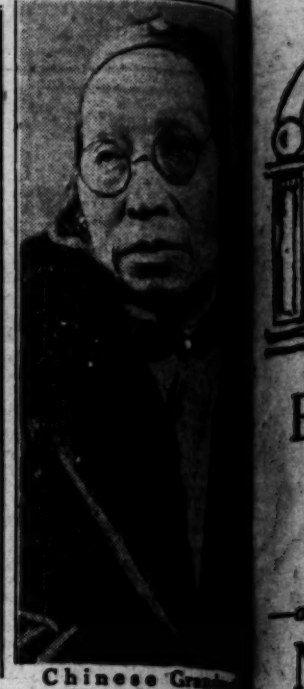

ALTHOUGH THE FLANKING MOVEMENT OF HOOKER'S FEDERAL ARMY ACROSS THE RAPPAHANNOCK WAS WELL EXECUTED AND CALCULATED TO TAKE THE CONFEDERATES OFF THEIR GUARD, LEE DIVINED HIS OPPONENT'S INTENTION AND, WHEN HIS SUSPICION HAD BEEN CONFIRMED, SENT ANDERSON'S AND MCLEW'S DIVISIONS TO TABERNACLE CHURCH, HALFWAY BETWEEN FREDERICKSBURG AND CHANCELLORSVILLE, WHERE EARLY ON MAY 1, 1863, THEY WERE JOINED BY "STONEWALL" JACKSON'S CORPS.

THE SAME MORNING, HOOKER SENT THE 2ND, 5TH, 12TH AND 3RD UNION CORPS MARCHING TOWARD TABERNACLE CHURCH ON THE WAY TO FREDERICKSBURG. A FEW MILES FROM CHANCELLORSVILLE, THE FEDERALS ENCOUNTERED JACKSON'S FORCES AND A BRISK ENGAGEMENT BEGAN. HOOKER'S GENERALS AND TROOPS WERE EAGER FOR BATTLE, BUT THE COMMANDING GENERAL'S CONFIDENCE FORBOK HIM AND HE ORDERED HIS FORCES TO RETIRE.

Evidently Well Pleased With 1927 prospect, the President and Mrs. Coolidge are caught by the cameraman in this unusual photograph as the old year died. This is one of the few photos taken recently showing the President in a light mood. (P. & A. Photo.)

Chinese Graduate Mrs. Lee Lin (above) was recently at San Francisco and charged embezzlement of \$10,000. (P. & A. photo.)

Elaborate Coiffures have been replaced for evening dress by the hat. Here is Joan Crawford displaying a chic black velvet millinery creation.

Fighting Near Chancellorsville, May 1, 1863.

by J. CARROLL MANSFIELD

HOOVER WAS NOW AFRAID THAT, IF HE FOUGHT IN AN ADVANCED POSITION, THE CONFEDERATES COULD REACH HIS FLANK AND REAR BY WAY OF SPOTSVYVA COURT HOUSE, AND DECIDED TO FIGHT ON THE DEFENSIVE. OVER THE PROTESTS OF HIS OFFICERS, THE ARMY WAS WITHDRAWN TO TAKE UP A DEFENSIVE POSITION AT CHANCELLORSVILLE AND HOOVER'S GOLDEN OPPORTUNITY WAS LOST.

THAT NIGHT, LEE AND JACKSON, BEATING THE CRACKER BOXES BEFORE A SMALL FIRE IN THE FOREST NEAR CHANCELLORSVILLE, HOOKER'S MEMORABLE COUNCIL OF WAR, THEY DECIDED TO ATTACK HOOKER IN SPITE OF THEIR NUMERICAL INFERIORITY AND AGREED UPON A DARING PLAN OF ACTION. TOMORROW—JACKSON'S FLANK MARCH.

RIVER ROW END FORECAST

Settlement on Colorado Power Revenue Question Predicted in Phoenix Dispatches

Settlement of the power-revenue phase of the California-Arizona Colorado River controversy, reported as the stumbling block on which the faces failed to agree during the meetings here last week of the tri-State conference in connection with the development of the river, was predicted in dispatches received here last night from Phoenix, Ariz.

They quoted H. S. McCluskey, secretary of the Arizona River Commission, as declaring that after talking by telephone with F. A. Reid of the Arizona commission, who remained here following adjournment of the parley, and E. F. Scattergood of the Los Angeles Bureau of Light and Power, "that a settlement agreement may be expected with the California conferees with respect to subsidy payments on power generated partially within Arizona." The tri-State conference adjourned last Friday without reaching a final agreement on a solution of the problems before it.

Asked last night to define the basis on which a possible settlement might be made, Mr. Scattergood said: "I don't think I should comment on it in the absence of the California commission. I am glad they feel that the matter is hopeful. It makes it appear more likely that we will get together."

The dispatches asserted that no statement was made of the likelihood of yearly income to be fixed. Mr. McCluskey was also declared to have submitted a general report to Gov. Hunt on his committee's activities since its appointment two years ago.

Statement also was made that six propositions now are before the Los Angeles conference, with the Californians accepting the general idea that Arizona is entitled to revenue from electric current generated on her border and consumed in another State. Airm is expressed, the dispatches

CITY'S GAIN CITY SEEKS POWER LINE VALUATION

Los Angeles Third Largest in Few Years, Says Senon; Lauds Natural Resources

Los Angeles will be the third largest city in the United States within fifteen, or at the most, twenty years, says William T. Senon, one of the directors in the Twelfth District Federal Reserve Bank of San Francisco.

Mr. Senon came down from the Bay City accompanied by James J. Pagan, executive vice-president of the Crocker First National Bank, to spend a few days at Arrowhead Hot Springs, near San Bernardino. He is interested in two San Bernardino Valley ranches, one of 11,000 acres and another of 1100 acres.

"It will soon be New York, Chicago and Los Angeles, the three greatest American cities," said Mr. Senon. "Los Angeles has everything to make a great city—cheap power, cheap water, a great harbor, all-year-around good working conditions and wonderful production in the back country."

In addition to these advantages, Los Angeles is being talked about favorably over the world. I went abroad recently and everywhere, as soon as it was known I was from California, I was questioned about Los Angeles. Even the elevator boy in a hotel in Naples said he was saving money to join his brother here. "Los Angeles is filling up with people. There is nothing that can keep it from being great in manufacturing and commerce. The city will continue to grow, rapidly."

PIONEER OF CALIFORNIA SUCCUMBS

Nicola Canepa Dies Here; Made Trip Around Horn Seventy-six Years Ago

Nicola Canepa, almost a "Mer" since he came to California in 1860, died yesterday at his home, 4141 Wall street, at approximately 84 years of age. He had been a resident of Los Angeles for more than forty years, and was a merchant at First and Spring streets until his retirement in 1907.

His funeral services will be conducted Thursday at 9 a.m. at the chapel of Godeau & Martini, with a requiem mass at Holy Cross Church and burial in Calvary cemetery.

Canepa made the perilous trip around the Horn and landed at San Francisco, then engaged in mining in Calaveras county, where he remained until he moved here. Soon afterward he married Miss Louise Cadematori. He leaves his widow, one son, Louis Canepa, an attorney, and one daughter, Mrs. C. M. Castrejo, both of this city.

Doheny to be Given Novelty Dinner Treats

The ceremony of "passing of the oil can," and the equally famous Breakfast Club initiation are novelties that will be injected into the dinner to be given in honor of Edward L. Doheny next Monday night at the Biltmore by the devotees of the "shrine of friendship," in addition to a program to be furnished by professional entertainers, according to William May Garland, chairman of the committee of twenty-one business men who have the affair in charge.

In his long and colorful life, which spans the West of yesterday and today, Mr. Doheny has had many unique experiences, remarked Mr. Garland. "But we are going to treat him to something brand new." The program is going to be swift-moving, and with a guest list that includes almost every notable citizen of Los Angeles, indications are that this will be one of the most brilliant formal dinners ever held in the city.

BANKERS TO FORMULATE LOAN PLANS

Clearinghouse Committee Will Confer on Subject of Advances to Veterans

Recommendations tending toward the standardizing of the procedure under which banks will extend loans to World War veterans on their adjusted service certificates will be formulated this afternoon by a committee of the Clearinghouse Association composed of junior bank officers, according to H. D. Ivey, vice-president of the Citizens' National Bank, and a member of the committee. Local banks reported yesterday they were besieged by veterans applying for loans.

It will be several days before the banks will be ready to make the loans, according to Mr. Ivey, who adds that the notes furnished by the Federal Reserve Bank of San Francisco had just arrived here yesterday.

Garner, chief of the personal service subdivision of the United States Veterans' Bureau, declared yesterday that the bureau was receiving 150 to 200 calls a day from veterans requesting information regarding the certificates. Funds will be advanced on the insurance policy for three months at an interest rate that is expected to be 8 percent, according to the plans. On policies that have matured two years it will be possible for the borrower to obtain about 8 cents on the dollar.

STATE ROAD HELP URGED BY CHAMBER

Committee in Resolutions Asks Governor to Support Move for More Funds

With a complete State highway system for California as their goal, the highway committee of the Chamber of Commerce has passed a resolution urging the immediate providing of funds by the Governor and Legislature for the repair of the roads of the State. The resolution was approved by the board of directors of the chamber at its last meeting. Following is the resolution:

"The Los Angeles Chamber of Commerce hereby urges upon the Governor and the Legislature to provide sufficient funds to the end that the 4100 miles of the State highway system shall be completed, and we hereby agree to support the same by the completion of the highway program is imperative."

Price Asked on Power Lines in Annexed Areas

The Board of Water and Power Commissioners of Los Angeles yesterday filed an application asking the State Railroad Commission to fix the valuations at which the city will take over the equipment of the Southern California Edison Company for recent annexations.

The lines and substations are located in the Hamilton, Santa Monica Canyon, Beverly Glen, Santa Monica Meadows, Watts and Sunland additions.

The water and power board distributes all electricity in Los Angeles and owns all its own equipment. In accordance with this policy, the property of private corporations in annexed territories is purchased by the city.

SALESMAN ARRESTED ON MANN ACT CHARGE

W. T. Gregg, salesman, and Flora Quinn, a school-teacher of Wenatchee, Wash., were taken into custody yesterday by Federal agents and charged with violating the White Slave Act, were made against the man. He was arrested before United States Commissioner Head and held in \$1500 bail for examination on the 10th inst. Gregg is accused of bringing the young woman to this city from Washington two months ago.

PARK SYSTEM PROPOSED

Chamber Committee, Following Survey, Reports City "Grossly Deficient" in Play Areas

Declaring that Los Angeles "has a gross deficiency in park land area" and recommending that a volunteer body of 100 citizens be formed to work out within the next year a comprehensive plan for the development of a park system, the subcommittee on parks of the Chamber of Commerce yesterday filed a detailed report on the subject with the chamber's board of directors.

The report covers 249 pages and contains a vast amount of evidence obtained from a score of men familiar with existing conditions and the park needs of the city and county.

PARK AREA DEFICIENT

In making its survey and report, the committee considered as a geographic unit the area extending from the sea to the mountains, including the latter, and from the southerly part of Ventura county eastward to include parts of San Bernardino, Riverside and Orange counties.

Not only is there a deficiency in total park land area, the report stated, but also a deficiency in the number of types of parks, inadequate distribution and lack of connection into one system. No comprehensive plan exists for maintaining this section's reputation as the nation's playground.

VENICE ASKS PAVING

Property Owners on Trolleyway Present Petitions

Petitions requesting the paving of South Trolleyway from the center of Venice to Fallades Del Rey to a width of 100 feet and the paving of Second avenue to a width of eighty feet were presented Monday by the board of directors of the Venice branch of the Chamber of Commerce to District Engineer J. H. Davidson. More than 80,000 feet of frontage are signed on the two petitions, which carry several thousand names. No circulators were needed for the petitions voluntarily stocked to the Venice City Hall to affix their signatures, it was asserted.

BEN-HUR COFFEE

At home in the best society

The Safeway Man

Primarily, Safeway Stores is an organization of men, and our purpose in presenting the Safeway Man to the public is that, through him, those we serve may get a clearer conception of our activities and the means by which we bring the necessities of life into your home at the lowest possible cost.

Through the pictured activities of the Safeway Man we will visualize the many and varied operations that enter into the scientific and economical assembling and dispensing of foods—the Safe Way.

New, as a character, the Safeway Man is old in his contact with and service to the public. You meet him every time you come into contact with any part of this organization.

He is in the stores and markets, in the offices, on the trucks, in the fields, factories and warehouses. He is a man with a purpose, an ideal and a realistic ambition—a highly trained, thoroughly capable, always courteous individual, without whose zeal, loyalty and efficiency our extensive operations would be impossible. You will find it interesting and profitable to follow his activities closely and be guided in your food purchases by the recommendations he makes.

How to convert this into 12 glasses of delightful Grape Jelly

Pour the grape juice into a sauce pan, add 6 cups of sugar, stir, then bring to a boil. Stir in one cup of Certo and bring to a full rolling boil for half minute. Remove from fire, let stand one minute, skim and pour quickly into glasses. Cover hot jelly at once with melted Parowax.

(Grape Juice)

—a quart bottle of Safeway Grape Juice—the juice of fragrant New York State Concord Grapes—and, a bottle of
